Conditions and Reasons

- 1 The development to be carried out in its entirety in accordance with the plans, particulars and specifications lodged with the application as amended by the revised plans and details submitted by way of additional information on 10/03/99 and unsolicited additional information on 22/06/99, save as may be required by the other conditions attached hereto.
REASON:
To ensure that the development shall be in accordance with the permission and that effective control be maintained.
- 2 Details of all proposed external finishes, including samples shall be submitted for the written agreement of the Planning Authority prior to the commencement of development.
REASON:
In the interests of visual amenity.
- 3 That an area of 2.07 acres of public open space be provided at the approximate location indicated as Public Open Space on the submitted plans to be agreed in writing with the Planning Authority prior to the commencement of development.
REASON:
In the interest of the proper planning and development of the area.
- 4 Prior to the commencement of development the applicant/developer shall submit for the written agreement of the Planning Authority, a detailed landscape plan with full works specification. The plan to include a timescale for implementation, a maintenance programme (for a period of at least eighteen months) and a bill of quantities for the development of the open space.
It should also include grading works, topsoiling, seeding paths, drainage, boundary treatment, open space planting, and street tree planting as necessary. These works to be in accordance with South Dublin County Councils' Guidelines for Open Space Development and Taking in Charge available from the Parks and Landscape Services Department.

In the interest of the proper planning and development of the area.

- 5 That the areas shown and conditioned as open space be fenced off during construction work and shall not be used for the purpose of site compounds or for the storage of plant, materials or spoil.

REASON:

To protect the amenities of the area.

- 6 Prior to the first occupation of each dwelling, the front side and rear garden areas to that dwelling shall be provided with sufficient top soil to allow grass and other vegetation to grow. The garden areas shall be levelled, graded grassed and planted not later than the first planting season following occupation of the dwelling.

REASON:

In the interests of the proper planning and development of the area and the protection of residential and visual amenity.

- 7 Prior to the commencement of development, details of proposed front side and rear boundary treatment to each dwelling shall be submitted to and be to the satisfaction of the Planning Authority. Details shall provide for:-

- (a) A two metre high privacy wall, plastered on both sides and capped between each attached dwelling for a distance of 2 metres from the rear wall of each attached dwelling;
- (b) Two metre high walls plastered to the outside and capped on the side boundary of each dwelling which abutts open space and/or a roadway/footpath. The required walls shall be erected from the rear building line of each applicable site and shall return towards the rear walls of the dwellings;
- (c) Two metre high walls along the rear boundary lines of all dwellings where rear garden areas back directly onto each other or where rear garden areas are side on to an adjoining rear garden area.

Dear Sir/Madam,

With reference to your planning application, received on 21/12/1998 in connection with the above, I wish to inform you that before the application can be considered under the Local Government (Planning & Development) Acts 1963-1993, the following **ADDITIONAL INFORMATION** must be submitted in quadruplicate:

- 1 Applicant to submit full details of proposed foul and surface water drainage, including pipe sizes, gradients, cover and invert levels up to and including connection to public sewer. The Environmental Services Section have no record of the foul sewer outfall it is proposed to connect to:
 - a) Applicant to ensure full and complete separation of foul and surface water system;
 - b) No building within 5m of public sewer or sewer with potential to be taken in charge. Refer to dwellings numbers 16, 17, 63 & 133.

- 2 The applicant is advised that the submitted watermain layout is unsatisfactory with particular regard to the following:-

- a) Buildings shown to lie within 5m of watermain less than 225mm diameter, this refers particularly to dwellings numbers 16, 17, 26, 36, 54, 67, 89 & 113;
- b) Insufficient number of hydrants;
- c) It is not shown that houses can be isolated in groups of not more than 40 houses;

The applicant is advised to consult with the Environmental Services Section of South Dublin County Council prior to submission of revised details.

- 3 The applicant is advised that the amended drawings submitted by way of unsolicited additional information on 04/02/1998 are unclear with respect to the boundary between the area of land to be designated for future development and the area of land designated as open space to serve the proposed housing development and that a revised site layout plan should be submitted clarifying same.
- 4 The applicant is requested to submit elevational details of proposed boundary treatment to the site where it fronts the Nangor Road and St. Cuthberts Road.
- 5 The applicant is advised that the planning authority consider the layout as submitted unacceptable particularly as it relates to the road/cul de sacs and parking areas indicated opposite dwelling No's. 27 to 103. The applicant is advised to consider re-designing the layout with particular reference to this road. The parking areas indicated are not required by the Roads Department for carparking and it is considered that they will become litter traps if they remain in the public domain.
- 6 The applicant is advised that the entrance to the proposed development would be opposite an entrance serving a housing area and Council Depot. The applicant is requested to show this junction and locate the proposed entrance and access road so that a suitable stagger between the junctions is achieved.
