REG REF. S01A/0847

Reasons

- 1 The advertising structure, located adjoining a heavily trafficked road, would cause distraction to road users and endanger public safety by reason of traffic hazard. The proposal would create a precedent for similar signs adjoining the N4.
- 2 The advertising structure would materially contravene the "high amenity" zoning policy of the County development Plan, in addition it would conflict with the Council's policy H14 expressed in the County Development Plan, regarding the provision of advertising signs and would set a precedent for similar type development in the area. The proposed structure would therefore be detrimental to the proper planning and development of the area.
