APPLICANT Mr. P.J. Gillard

In pursuance of its functions under the above mentioned Acts the Dublin County Council, being the Planning Authority for the County Health District of Dublin, did by order, P/ 98/79 dated 9/1/79, decide to refuse:

~~OUTLINE PERMISSION~~

PERMISSION

~~APPROVAL~~

For proposed machinery shed and offices at Firhouse Road, Tallaght,

for the following reasons:

1. The site is located in an area zoned to preserve an area of high amenity within the Dodder Valley amenity area. The industrial and commercial development proposed on this site would contravene materially the above objective, would not be in accordance with the proper planning and development of the area and would seriously injure the amenities of the area.
2. The proposed industrial/commercial development would endanger public safety by reason of traffic hazard due to the generation of the unacceptable level of additional heavy traffic turning movements on the inadequate and poorly aligned Firhouse Road.
3. Public piped sewerage facilities are not available to serve the proposal.
4. The proposed development would be premature by reason of the said existing deficiency in the provision of public piped sewerage facilities and the period within which such deficiency may reasonably be expected to be made good.

Signed on behalf of the Dublin County Council

for PRINCIPAL OFFICER

Date..... 9th January, 1978.

NOTE: An appeal against the decision may be made to An Bord Pleanala by the applicant within one month from the date of receipt by the applicant of this notification or by any other person within twenty-one days of the date of the decision. The appeal shall be in writing and shall state the subject matter of the appeal and grounds of the appeal and should be addressed to An Bord Pleanala, Holbrook House, Holles Street, Dublin 2 and accompanied by a deposit of £10. When an appeal has been duly made and has not been withdrawn An Bord Pleanala will determine the application for permission as if it had been made to them in the first instance.
