AN BORD PLEMIALA

LOCAL COVERNMENT (PLANNING AND DEVELOPMENT) ACTS, 1963 AND 1976 County Dublin

Planning Register Reference Number: H.1944

APPEAL by George Hoopen, care of 53, monastery Walk. Clondalkin, County Dublin, against the decision made on the 10th day of September, 1976, by the Council of the County of Dublin deciding to refuse to grant to retail storage units on a site at Brownsbarn, County Dublin:

DECISION: Purch : to the Local Government (Piarring and Development) Acts 1953 and 1975, permission is hereby refused for the said development for the reasons set out in the Schedule hereto.

- 1. The proposed development would endanger public safety by reason of traffic hazard due to the generation of heavy vehicular traffic on the inadequate road network in the area.
- 2. The area of which the site forms a part is zoned in the development plan for the further development of agriculture. This coning is considered reasonable and the proposed development would be in conflict with it and would militate against the preservation of the rural environment.

L. S.

Member of An Bord Pleanala duly authorised to authenticate the seal of the Board.

Dated this Zotar of Lug. 1980.

TELEPHONE: 42951 (EXT. 131)

Planning Department, 46-49 Dame Street, Dublin 2.

NOTE: An appeal against the decision may be made to the Minister by the applicant within one month from the date of receipt by the applicant of this notification or by any other person within twenty-one days of the date of the decision. The appeal shall be in writing and shall state the subject matter of the appeal and grounds of the appeal and should be addressed to the Secretary, (Planning Appeals Section), Department of Local Government, Custom House, Dublin 1.1 When an appeal has been duly made and has not been withdrawn the Minister for Local Government will determine the application for permission as if it had been made to him in the first instance.

4. The proposed development would endanger public safety by response of traffic hazard due to the generation of heavy vehicular traffic by a devekopment on the scale proposed on the inadequate road network in the area. If this development were permitted it would involve upgrading of the existing roads to Road Department normal standards for industrial access roads.

5. The proposed development would endanger public safety by meason of traffic hazard by creating additional turning movements on a junction on the Dublin Naas dual-carriageway at a location where

fatal accidents have already occurred.

Signed on behalf of the Dublin County Council Administrative Officer.

Date: 13th September, 1976.
