Memorandum of the County Board, Chicago

- (1) The creation of a public house on this site under a 99-year lease, situated in an area of high property value, would be in conflict with the County's Draft Development Plan proposals for the area and would seriously injure the existing condition of this area.
- (2) Flood drainage systems are not available and there is not a public water supply to serve the proposal.
- (3) The proposal is not acceptable to the Council, in view of the likely pollution of the public drinking water supply resulting from the Upper Mersey sewerage treatment, which would endanger public health.
