Re: Retention of existing work on car port and to complete
same at Cooldrinagh Cross, Lucan for P.J. Forde.

Dear Sirs,

With reference to your planning application, received here on 18/6/'87, in connection with the above, I wish to inform you, that before the application can be considered under the Local Government (Planning and Development) Acts, 1963-1983, the following additional information must be submitted in quadruplicate:-

1. The applicant is requested to clarify the effect the proposed development would have on the functioning and safe operation of the septic tank and percolation area serving the existing dwellinghouse on site. In this regard, the applicant should consult with the Supervising Environmental Health Officer prior to re-submission.
2. It is unclear if the proposed structure can be used for the storage of those items indicated on documentation lodged in view of the restricted on site conditions. This matter to be clarified by applicant.
3. Inadequate construction details have been submitted of the proposed structure. The applicant is requested to submit sections and elevations of the structure proposed to be retained and completed.

Please mark your reply "Additional Information" and quote the Reg. Ref. No. given above.

Yours faithfully,

for Principal Officer.
