LOCAL GOVERNMENT (PLANNING AND DEVELOPMENT) ACTS, 1963 TO 1983

# Dublin County Council

## Planning Register Reference Number: 85A/173

APPEAL by Dublin Corporation Engineering Department, of 28, Castle Street, Dublin, against the decision made on the 15th day of May, 1985, by the Council of the County of Dublin to grant subject to conditions a permission to Patrick Anderson, care of P.C. O'Grady and Associates of 29/30 Dame Street, Dublin, for development comprising the retention of a house and erection of a garage and septic tank at Glassamucky Townland, Glenasmole, Tallaght, County Dublin, in accordance with plans and particulars louged with the said Council:

DECISION: Pursuant to the Local Government (Planning and Development) Acts, 1963 to 1983, it is hereby decided, for the reasons set out in the First Schedule hereto, to grant permission for the said development in accordance with the said plans and particulars, subject to the conditions specified in the Second Schedule hereto, the reasons for the imposition of the said conditions being as set out in the said Second Schedule and the said permission is hereby granted subject to the said conditions.

#### FIRST. SCHEDULE

The site is located in an area of high amenity and it is the policy of the planning authority to protect this area from development which would be injurious to its amenity. The Board considers this policy to be reasonable.

The house which is proposed to be retained is sited well below the level of the adjoining public road and is seen, in views from that road, as a single storey structure and, in views from the opposite (south-western) side of the valley as a two storey structure set into the site and with a backdrop of roadside fence and steeply rising lands formerly used for gravel extraction.

It is noted that the site is generally suitable for the disposal of septic tank effluent and that the proposed septic tank and percolation area would be located a considerable distance from the nearest stream which is downhill from them.

Having regard to these factors and to the existing pattern of development in the vicinity of the site and taking into account the applicant's need for a house and his connection with the area and with the landholding on which the site is located, the Board considers that, subject to compliance with the conditions set out in the Second Schedule hereto, retention of the house and construction of a garage and septic tank would not be injurious to the amenity of the area or be likely to give rise to contamination of the reservoir or be otherwise contrary to the proper planning and development of the area.

#### SECOND SCHEDULE

1. The water supply and drainage arrangements including the location, design and operation of the proposed effluent treatment system shall comply with the detailed requirements of the planning authority for such services and works.

Reason: In the interest of public health and to ensure that the reservoir will not be contaminated by effluent from the development.

The access from the development to the public road shall be constructed in accordance with the detailed requirements of the planning authority for such works.

Reason: In the interest of traffic safety.

A detailed landscaping scheme which includes a timetable for implementation of the scheme shall be submitted to the planning authority within one year of the date of this permission and shall be agreed with the planning authority or, in default of agreement, shall be as determined by An Bord Pleanála.

Reason: In the interest of visual amenity.

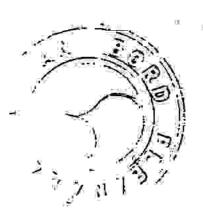

4. The house shall not be occupied prior to the 31st day of March, 1989 as a place of permanent residence by any person or persons other than the applicant and/or members of his immediate family.

Reason: To ensure, in the interest of the proper planning and development of the area that the house is used to meet the housing need referred to in the course of this appeal and accepted as a material planning consideration in this case.

#### SECOND SCHEDULE (CONTD.)

5. The developers shall pay the sum of £375 (three hundred and seventy five pounds) to Dublin County Council as a contribution towards the provision of public water supply in the area. The arrangements for payment shall be as agreed between the developers and the said Council or, failing agreement, shall be as determined by An Bord Pleanála.

Reason: The provision of this service in the area by the Council will facilitate the development. It is considered reasonable that the developer should contribute towards the cost of providing the service.

Jehn Dayer

Member of An Bord Pleanala duly authorised to authenticate the seal of the Board.

Dated this 13th day of Musich

1987.
