Memorandum to the Commission on the Hawaiian Islands, Honolulu, Hawaii

- (1) The main of the proposed extension will generate additional traffic equivalent to and from the side, which is located within 2 1/2-30 of a major intersection and thus creates a serious traffic hazard.
- (2) Highway facilities are not available to serve the proposed increased development of the side.
- (3) The proposed would be premature by virtue of the deficiency in the provision of adequate facilities and the period within which such deficiency is likely to be made good.
