House Report (47 House) at Finance Dept, Washington

1. There are no public policy considerations available to serve the purpose.
2. The proposed plan is located in an area reserved for Indians in the Communist (Korean) Plan as an area of special priority in connection with the so-called "one million" plan of the Government (Planning and Development) Act, 1952.
3. The proposed development would be possible by means of the total national deficiency in the production of minerals, fuel, iron and steel which would be met by the Government for the purpose of the plan.
