 Effect

Refused
 Refused

- (1) The proposed commercial development... unserved site, which is undesirable located in a rural area, would not be in accordance with the proper Planning and Development of the area, and would seriously injure the amenities of the area. There is no public amenity available to serve the proposal. The proposed development would be premature by reason of the said existing highway in the provision of average facilities and the period within which such deficiency may reasonably be expected to be made good.
- (2) The proposal would constitute a serious traffic hazard because of the volume of traffic generated and the additional traffic movement created by the proposal. (MPC)
