Industrial Development in Tallinn

- (1) Planned emergency facilities are not available to serve the proposed.
- (2) The proposed development would be prevented by removal of the existing existing deficiency in the provision of necessary facilities and the period within which such deficiency may reasonably be expected to be made good.
- (3) The proposed emergency access road at the east side of the site is considered inadequate to serve the scale of development proposed and is likely to create a serious traffic hazard at the junction with Killarney Road.
