Regulation of Sewerage and Water Supply, Hyderabad

- (1) The erection of a challenging tower in this exposed site on the 60-ft contour in an area of high density, would seriously injure the amenities of the area.
- (2) Public piped sewerage and water supply facilities are not available to serve the proposal.
- (3) The proposed development would be premature by reason of the said existing deficiency in the provision of sewerage and water supply facilities and the period within which such deficiency may reasonably be expected to be made good.
