3

- 2/15/68 J. W. ...
- (1) The site plan submitted with the application is insufficiently detailed to enable the area to be properly identified and the area to be properly measured.
 - (2) The site proposed, and the alternative site appears to be of insufficient depth to permit adequate building lines and back garden depths to be obtained. (Proper Planning and Development).
 - (3) There are no public piped sewers or other supplies available to serve the proposal and no details of satisfactory alternative methods of water supply or drainage have been submitted.
 - (4) The erection of dwellings on these proposed sites situated in an area of high amenity value would be in conflict with the Council's land development plan proposals for the area and would seriously injure the amenities of this area.
