REG REF. S99A/0905

Reasons

- 1 Having regard to Condition NO. 9 attached to 91A/1847 which required that the remainder of the 4.5 acre field in the Fanning ownership be left free of housing development, the proposed development which proposes to erect a dwelling and septic tank on these said lands would contravene materially, a condition attached to an existing permission for development and is contrary to the proper planning and development of the area.
- 2 The proposed development would contravene materially the zoning objective "to protect and improve rural amenity and to provide for the development of agriculture" as indicated in the South Dublin County Development Plan, 1998.
- 3 The proposed development constitutes ribbon development on a sub-standard road which would be likely to lead to uneconomic demands for the provision of services and would be contrary to the proper planning and development of the area.
- 4 The additional traffic movements which would be generated by the proposal, when taken in conjunction with the traffic generated by the existing development served by the sub-standard rural road, would endanger public safety by reason of traffic hazard.
