REG REF. S99A/0743

Reasons

- 1 The proposed development would result in a smaller site boundary than that which has received permission under 91A/0749. The proposed development would materially contravene a previous grant of permission.
- 2 The proposed development would result in the septic tank and percolation area being located outside of the site boundary. This could result in the existing dwelling having no legal control over a necessary septic tank and percolation area. This is unacceptable to the Environmental Health Officer and would be prejudicial to public health.
