REG REF. S99A/0338

Reasons

- 1 The proposed development is located in an area zoned "to protect and enhance the outstanding natural character of the Dublin Mountain Area" in the South Dublin County Development Plan 1998. It is the policy of the Planning Authority, as stated at Section 2.3.1 of the current Development Plan, that housing will only be permitted in such areas where the applicant is a native of the area, can demonstrate a genuine need for housing in the area, and where the development is related directly to the area's amenity potential or its use for agriculture, mountain or hill farming. The applicant has not established a sufficient case in this regard. The proposed development would, therefore, materially contravene the zoning objective for the area and would be contrary to the proper planning and development of the area.
- 2 The proposal to erect a dwelling on this sensitive and elevated site which is zoned "to protect and enhance the outstanding natural character of the Dublin Mountain Area" and where it is the stated objective of the Planning Authority to preserve views from either side of the adjacent roadway, would be seriously injurious to the visual amenities of the area and, as such, would be contrary to the proper planning and development of the area.
- 3 The proposed development constitutes undesirable ribbon development on a substandard rural road network, which will lead to a demand for the uneconomic provision of services and would set an undesirable precedent for further similar developments in the area.
- 4 The proposed development would endanger public safety by reason of traffic hazard due to the generation of traffic turning movements at a location where vision is deficient.
