REG REF. S99A/0337

**Reasons**

- 1 The proposed development would contravene materially a development objective indicated in the South Dublin County Development Plan, 1998, for the use solely or primarily of particular areas for particular purposes i.e. zoning objective 'B' - "To protect and improve rural amenity and to provide for the development of agriculture". The proposed development would thus be contrary to the provisions of the South Dublin County Development Plan, 1998, and the proper planning and development of the area.
- 2 The proposed development would contravene the policies of the South Dublin County Development Plan, 1998, regarding dwellings in rural areas as set out in Paragraph 2.3.1(ii) in that the applicant has not established a genuine need to reside in the area due to proximity to employment which is related to the rural community or by reason of close established family ties with the rural community. The proposed development would thus be contrary to the proper planning and development of the area.
- 3 The proposed development, by reason of the generation of additional traffic movements, on a substandard rural road which is inadequate to provide for the free flow of traffic and the safety of pedestrians and which experiences high traffic volumes, would endanger public safety by reasons of traffic hazard and obstruction to road users. The proposed development would therefore be contrary to the proper planning and development of the area.
- 4 The proposed development would constitute undesirable ribbon development on a substandard rural road network which would be likely to lead to uneconomic demands for the provision of services and would set an undesirable precedent for further similar developments in the area. The proposed development would thus be contrary to the proper planning and development of the area.
