Report of the Dublin Planning Officer, dated 1 October 1991

This is an application for PERMISSION. The proposal consists of revised plans for front elevations to existing approved housing development at Bancroft Road, Tallaght.

The area in which this development is located is zoned with the objective 'A' - "to protect and/or improve residential amenity".

Site inspection indicates that building has commenced, though only one house has been built so far, i.e. the detached house at the west of the site.

The Planning History of the site indicates the following:

- 88A/910 Permission granted for a Bungalow on this site.
- 89A/426 Permission granted for 8 houses on the site, i.e. 7 terraced and one detached.
- 89A/460 Permission granted for detached house, (not an additional house).

Applicant states that since the original permission granted in 1989, a different pattern has emerged in house types/elevational treatment. The elevation treatment now proposed consists mainly of the addition of bay windows to the front; the incorporation of dormers over some of the first floor windows, and more extensive canopies to the front. The ground floor is in brick, while the upper storey is plaster.

There would be no objection to the proposal.

I recommend that a decision to Grant Permission be made under the Local Government (Planning and Development) Acts, 1963-1990, subject to the following (8) conditions:-

~~Re: Proposed alterations to plans to change elevational treatment to seven previously approved houses at Bancroft Road, Tallaght. Previous permission Reg. Ref. 69K/428 granted 25/11/68~~

Dear Sirs,

We wish to apply on behalf of our client Imelda O'Loole for planning permission for revised plans showing alterations to the front elevational treatment to seven houses of a proposed housing development at Bancroft Road, Tallaght.

The original plans for the development were approved by Dublin County Council in 1969, since that date other housing developments have been built in the Tallaght area which have set a pattern for the type of house now being marketed. The proposed changes to the elevational treatment are to satisfy the requirements of purchasers who have expressed a strong interest in the houses.

The revisions mainly consist of the addition of bay windows to the front elevations, the incorporation of dormers over some of the first floor windows and more extensive canopies to the front.

Please find enclosed the following documents in support of this application:

17/11/68

~~(a) A completed application form~~

~~(b) A newspaper advertisement~~

~~(c) 4 copies of a site location map~~

~~(d) 4 copies of drawings 828, 10, 20, and 21 which illustrate the proposed changes~~

~~(e) 4 copies of an outline specification~~

~~(f) A cheque to cover the planning fee~~

~~We intend to make a separate bye law application.~~

~~Yours faithfully,  
Seth and Gauran~~
