To whom it may concern,

I write in relation to proposal contained in the planning application number SD21A/0101 for an Apartment Development on Nutgrove Avenue for the creation of 28 number apartments.

For a long time the site has been idle and have become opvergroen and had developed into a eyesore along Nutgrove Avenue. The Site in a sence represents all that has gone wrong with planning, but can also represent all that can be fixed. It's a great location, well designed and will bring great new family homes into an area that is crying out for choice.

There are a number of very strong reasons why the Council should approve this development, not least of which include:

- 1. The design is considerate of existing homes in the area*
- 2. The site is well located, directly adjacent to existing public transport infrastructure*
- 3. The design will make a positive contribution to the local streetscape*
- 4. The cycle lane & footpath outside will encourage low carbon travel*
- 5. The development will have little or no impact in on traffic*

- 6. Its well located within walking distance to a variety of local amenities*
- 7. It meets all of the Governments strategic planning policies*
- 8. The proposal is similar to other approvals granted in the area*
- 9. The landscape plan will greatly the quality of amenity spaces all*

Development of this kind should be encouraged and I want to offer my support for it.

Yours Faithfully

Owen Keating
