

GENERAL NOTES:

1. This is a performance drawing which should be used for guidance and pricing only.
2. Construction/working drawings are the sole responsibility of the contractor.
3. Do not scale from this drawing use figured dimensions only.
4. This drawing to be read in conjunction with the relevant architects drawings and structural engineers drawings.
5. The consulting engineer shall be notified by the contractor of any errors and omissions.
6. Exact location of all plant equipment and penetrations are the responsibility of the contractor who shall co-ordinate the installation with other trades.
7. The contractor shall note that all ductwork routes are indicative only, final layout to be designed by the Design & Build team.
8. This drawing is intended to be viewed in colour.
9. Mini-pillar and micro-pillar locations shall be installed, if required, as per Standards & Regulations. Mini-pillar layout to be designed by the Design and Build design team.
10. Ducting shall be made to ISI35 Class B. Ducting shall be red in colour and be tagged with the words "Site Lighting".
11. Each luminaire shall have its own separate photocell to control the fitting. Each fitting shall also have a timeclock connection back in the main board.

Symbols Reference:

- PUB LTG --- Site Lighting duct - 110mm diameter
-  Column Mounted External Luminaire - column heights as per Lighting Reality Report
-  Manhole - specifications by CIVIL/Structural Engineer
