Re: PLANNING REGISTRATION NO: SD21A/0155

Dear Sir/Madam,

I write with regard to the above planning application by Ontower Ireland Limited to replace existing 12m decommissioned chimney flue with a 20m multi-user telecommunications support structure. Located at Ballyroan Community & Youth Centre, Marian Road, Rathfarnham, Dublin 14.

Following consultations with our Air Corps colleagues at Casement Aerodrome, The Department of Defence would like to make the following observations:

Obstruction lights used should be incandescent or of a type visible to Night Vision Equipment. Obstruction lighting fitted to obstacles must emit light at the near Infra-Red (IR) range of the electromagnetic spectrum specifically at or near 850nanometres (nm) of wavelength. Light intensity to be of similar value to that emitted in the visible spectrum of light. Obstruction lights used should be incandescent or of a type visible to Night Vision Equipment.

Please contact me if you have any queries in this regard.

Yours faithfully,

Sent via e-mail due to Covid19 restrictions
