Subject: Planning Observation - SD21A/0155

Dear SDCC Planning,

My wife and I fully support the proposed telecommunications mast being proposed on the grounds of Ballyroan Church, Marian Road, Dublin 14.

The signal to our home is very poor and calls are constantly being dropped. This has resulted in us missing important phone calls as our mobile phones are only partially effective at the front of the house. The proposed telecommunications mast will give 360 degrees coverage which will greatly improve the quality of coverage in the area.

We all depend on a level of phone signal that allows us to communicate with family and friends and to carry out basic functions such as internet banking which now requires phone authentication, both of these are currently very difficult because of the poor signal. In the future we will be depending on our phones for more of these functions and for us this will become more difficult without a quality phone signal.

We sincerely hope that SDCC gives approval for this mast for our benefit and the benefit of others who are living in this "dead zone" phone area.

Attached please find our receipt for the €20 fee in connection with our observation.

Yours Sincerely

James & Geraldine Perkins
