Dear Sir / Madam,

Further to your request for additional information I have addressed this in point form below.

1. Please see enclosed foundation detail from our engineer to address the issues regarding the location of the drain in the footpath.
2. The vehicular access has been removed and replaced with a pedestrian entrance. There is an area provided to the front for bin storage. Refer to drawing No. FI-01 enclosed.
3. See enclosed drawings No. FI-01 showing plan & elevations of shed.

I trust you find the enclosed to your satisfaction and hope that you will look favourably on our application.

Yours sincerely,
