

A chairde,

We, the undersigned, wish to make an observation on the above planning application for two (2) data centres.

The proposed development would lead to a significant strain on power in the area, causing further disruption to a grid already suffering from intermittent blackouts. Data centres are space and power extensive in a manner that doesn't match with this county's environmental and economic goals. Under the current Development Plan, this application falls short on provision of power by renewable sources, and on promotion of biodiversity through green roofs and other means.

We feel that agreeing to this development at this stage would seriously undermine the good work of the County Council on climate action.

Is sinne le gach meas,

Cllr. Laura Donaghy, Green Party/Comhaontas Glas - Rathfarnham/Templeogue

Cllr. Liam Sinclair, An Rabharta Glas/Green Left Ireland - Tallaght Central

Cllr. Suzanne McEaney, Green Party/Comhaontas Glas - Firhouse/Bohernabreina

Cllr. Peter Kavanagh, Neamhspleách - Clondalkin
