The development was scheduled to commence in March 2020 with completion expected in June 2021 however, due to the COVID-19 pandemic and the National Level 5 restrictions, work was unable to begin. This delay affected both the tenders and funding for the project and due to the uncertainty within the construction industry and economy as a whole it was not possible to proceed. As restrictions eased and the economy reopened the tender process was started again however staffing shortages, material shortages and a backlog of projects resulted in further delays. The development commenced in May 2021 and substantial works have been carried out. Due to the unprecedented global pandemic and the subsequent commercial and economic circumstances beyond the applicants control we are making this application for an extension of duration of permission.
