RE: APPLICATION REF: SD21A0203 (Microsoft Operations Ltd.)

Response to Further Information Request

Proposed Modifications and minor additions to previously approved scheme (Planning Register Reference SD20A0283) in respect of Data Centres (DUBs 14 & 15) & Central Administration Building at Grange Castle Business Park, Dublin 22 for Microsoft Operations Ltd.

Dear Ms. McGibbon,

Please see enclosed response in relation to the above Request for Further Information.

We confirm that we have met with Ronan Toft & Brian Harkin of South Dublin County Council Water Services Department, where we outlined our response to the Further Information request in relation to the surface water drainage design and how we have incorporated additional SuDS and Green Infrastructure features throughout the site. Feedback from the meeting was positive and the representatives from SDCC were in broad agreement with our design approach.

We would also like to confirm that we have reviewed the enclosed revised Landscape Design and Biodiversity proposals with representatives from the SDCC Parks Department (Laurence Collieran & Fionnula Colleens) and also with Rosaleen Dwyer (Biodiversity Officer) and our submission includes some additional detail requested at this meeting.

Yours faithfully

Vicky Landy
