Hi Nicholas,

Data Requests supply records of Irish Water Infrastructure in GIS format (i.e. shp, .gdb, .tab, or .dwg). We do not generally issue maps in **paper, PDF or image** format. If you require this format you should contact the relevant Local Authority directly.

But as you are having problems with the spatial reference and to avoid any delay in your works, please find attached the Water and Sewer maps for that location.

Kind regards,
Raoni Gouveia

Hi Raoni,

Thanks so much for the detailed response below but for some reason our 2018 autocad wont allow Geolocation to work. Maybe because it's a LT version.

I attach an example map of an Irish Water infrastructure that was sent to us for another project. Would you be able to send me an image like this in a jpeg or pdf for the area around 38 Whitehall Road, Dublin 12 and this will be enough to answer back to the council?

Sorry for all these emails.

Kind Regards,
Nicholas Mernagh
