KEY
 Planning Application Boundary

- SuDS Opportunities**
- Attenuating Tree Pit**
Generally continuous trench under public realm surfacing, with openings at surface to plant / replant trees or similarly appropriate for IW best practice where relevant
 - Surface Swales**
Green planted areas just below street level where surface water flows directly in from adjacent surfacing.
 - Street level opening to plant / replant tree into attenuating tree pit**
Permeable footway surfacing infill

- NOTES**
1. All dimensions in millimetres unless otherwise shown.
 2. All levels in metres above Ordnance Datum (mAOD) unless otherwise shown.
 3. All dimensions to be checked on site and any discrepancies reported to Employer before pricing / work starts.
 4. Any ambiguities or discrepancies within this drawing and any other information given elsewhere must be reported to Camlins and the Employer for clarification before pricing work proceeds.
 5. All drawings to be read in conjunction with other Camlins drawings and specification information as appropriate.
 6. Refer to relevant Engineer's and Architect's information as appropriate for confirmation of all engineering and architectural details.
 7. All works to be carried out in accordance with the latest British Standards and appropriate codes of practice as a minimum.
