To Whom it may Concern ,

We apply for an extension of duration of permission under the following grounds

Part B : (I) that there were considerations of a commercial, economic or technical nature beyond the control of the applicant, which substantially militated against, either the commencement of development, or the carrying out of substantial works pursuant to the planning permission

The extension is for a family member who is in poor health and needs ground floor accommodation. When we were granted approval in 2016 , we ran into serious financial difficulties , this was as a result of having to give up work and stay at home and be principal carer to our family member . This rendered us with very little income with which, to undertake the development.

Our situation changed in late 2019, and our extended family , offered and we accepted, funds to undertake the development . We had a builder in place to do the works and we were to move into temporary accommodation nearby. Then with covid, the temporary accommodation

became unavailable, and for obvious health reasons we were unable to bring the builder into our family home, with us insitu . The builder we had in place, is no longer available to us.

We are desperately seeking a builder since covid restrictions have been lifted.

We do not want to go through the planning process again. The works are desperately needed for our family member for day-to-day functioning. Can you please grant us an extension of duration.

Sincerely

Amr ABU ZAID
