Re: Plan ref SD21A/0205 RFI dated 15/09/21

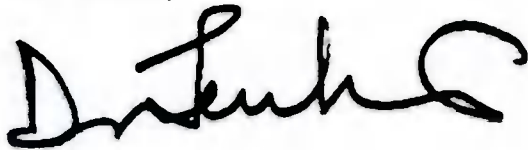

Dear Mr. Mason,

I have reviewed the request for information referenced above. In respect of item 2 and the request for SUDS measures, the proposal comprises only internal re-arrangement and additional fire exit and there are no drainage works proposed or no increase in impermeable area. On this basis, I would consider the drainage requests to be in error and if not, are unreasonable.

In respect of item 3, there is a formal application process to Irish Water for a confirmation of feasibility but it would seem unnecessary as there is no new drainage work proposed or increase in use. The existing drainage layout has been submitted.

If you have any queries please call me.

Yours sincerely

David Jenkins BScEng CEng MStructE MIEI
