Observation details

5. Grounds

Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below. There is **no word** limit as the box expands to fit what you write. You can also insert photographs or images in this box.

(See part 6 – Supporting materials for more information.)

1. **Traffic congestion** – It appears to me that we are exasperating an already extremely busy road with all of the local developments that feed onto Stocking Lane and I don't see why access to this development should not be via Edmondsown Road (Springvale) to prevent further congestion.
2. **Number of houses** – I believe that we are (As in most cases these days) cramming as much as we can into these developments without regard to the local ambiance and what existing residents have already invested in with their homes – serious regard should be given to the type and number of houses / apartment blocks along with the removal of any trees etc.
3. **Height of Apartment Blocks** – It appears that these will intrude on existing properties in Prospect Manor (Avenue & Heath) and these should not be as high.
4. **General** – Whilst we have all to embrace progress it cannot be done without consideration to existing residents and the surrounding landscape and infrastructure this application should be rejected as
 - a. There are too many dwellings
 - b. It will further seriously impact congestion on Stocking Lane
 - c. I believe from the drawings that it will have an impact on the privacy of those on Prospect Heath and Prosect Avenue.
