Observation details

5. Grounds

Please describe the grounds of your observation (planning reasons and arguments). You can type or write them in the space below. There is **no word** limit as the box expands to fit what you write. You can also insert photographs or images in this box.

(See part 6 – Supporting materials for more information.)

Traffic- Stocking Lane is a country road with already more traffic than it can facilitate. This development only has vehicle access on to Stocking lane and there are no plans on how to deal with this increased traffic.

Density- This proposal is an overdevelopment of the site. Statutory planning guidelines suggest 35-50 units per hectare, therefore this development at 131 units would be over the higher end of this suggestion as the site is 2.47 hectares. I would suggest given the location that it should be at the lower end ie 86 units.

Elevation and Proximity to Houses in Prospect Manor- According to the SDCC Development Plan 2016-2022, Section 11.2.7 BUILDING HEIGHT, "The proximity of existing housing - new residential development that adjoins existing one and/or two storey housing (backs or sides onto or faces) shall be no more than two storeys in height, unless a separation distance of 35 metres or greater is achieved."

This Development is not 35 meters away from 2 story Prospect Manor Houses, and it a proposed 3 stories high-therefore it should be refused on these grounds. This development would cause Privacy, noise and light concerns for those Prospect manor residents bordering the development.
