

This drawing is to be read in conjunction with the respective architectural schedules and reports relevant to this project. Any correspondence between this drawing and any other design information becomes apparent, the respective authors should be consulted immediately. It is the responsibility of the site client to ensure that all site operations work in accordance with the respective architectural reports and BS5837:2012. Trees in relation to design, demolition and construction should be protected in accordance with the relevant legislation.

BS5837:2012 Tree Categorisation

- Category A**
Trees of high quality with an estimated remaining life expectancy of at least 40 years
- Category B**
Trees of moderate quality with an estimated life expectancy of at least 20 years
- Category C**
Trees of low quality with an estimated life expectancy of at least 10 years, or young trees with a stem diameter below 150mm
- Category U**
Trees in a condition that they cannot reliably be retained as living trees in the context of the current land use for longer than 10 years

Key

- Root Protection Areas
- The minimum area around a tree deemed to contain sufficient roots and rooting volume to maintain the trees viability
- Tree, Shrub or Hedgerow Group
- T520 Reference Number for Tree, Group or Hedgerow
- Site boundary
