

General Notes
 Do Not scale off drawing - refer to the tree data schedule for accurate crown spread measurements.
 Depictions of tree canopies are based on measurements taken to four compass points.
 No liability is accepted for any omissions or inaccuracies in respect of this data.
 The original of this drawing was produced in colour - a monochrome copy should not be relied upon.

Key

T1-B
 Showing Canopy extent, category colour and tag number (with category).

Category A
 Trees of high quality with an estimated remaining life expectancy of at least 40 years.

Category B
 Trees of moderate quality with an estimated remaining life expectancy of at least 20 years.

Category C
 Trees of low quality with an estimated remaining life expectancy of at least 10 years, or young trees with a stem diameter below 150 mm.

Category U
 Trees in such a condition that they can be removed or are in the process of being removed and the ground is to be used for longer than 10 years.

Tree Outline
 Shows 80% shaded canopy/footprint line. Colour represents category (see above).
