

**RURAL HOUSING COMPLIANCE STATEMENT REPORT for
Frank Reynolds, Ringwood, Hazelhatch, Celbridge, Co. Kildare.**

December 2021

INTRODUCTION & PROPOSED DEVELOPMENT.

The applicant Frank Reynolds is applying for permission to construct a detached dormer bungalow, secondary effluent treatment system, vehicular entrance and all associated site works. Frank is a racehorse breeder and works fulltime in the equine industry.

PLANNING HISTORY

There is one refused planning application on the site, from 2000. SA00/0276. Permission was refused mainly due to lack of local need of the applicant. Frank Reynolds purchased the site in 2009, please find land registry folio DN19266F attached, confirming same.

Frank Reynolds, leases 20.18 acres of land in Ringwood, Hazelhatch, directly behind the proposed site, a lease agreement can be provided to the planning authority but for GDPR reasons we are excluding it from the planning application. However, should the planning authority require same we can email or provide a hard copy of same.

The google map image above highlights the applicants leased lands (YELLOW) in relation to the proposed development if his home (RED)

ZONING

The site is zoned “RU” in the SDCC Development Plan, which is defined as “To protect and improve rural amenity and to provide for the development of agriculture”. Residential development is “Open for Consideration” under this zoning.

RELEVANT POLICY IN SDCC DEVELOPMENT PLAN.

Policy H21.

The applicant is claiming compliance with the zoning objective “RU” on the following grounds:

The applicant’s equine development is an intrinsic agricultural development which is consistent with the zoning policy on the lands.

Frank is a full-time racehorse breeder and has 55 horses in his ownership – please find a number of copies of passports attached.

Policy H26 – Occupancy Condition.

The applicant will accept any occupancy condition attached to a grant of permission should the planning authority be mindful to grant.

ARCHITECTURAL FORM AND DESIGN.

The house has been designed to be cognizant of the existing established architectural pattern of development in the area. The site is located within 200m of Hazelhatch Train Station and is an infill site on a transitional area between rural and urban.

The house will take advantage of a slightly lower ground level to accommodate the house on the site and will form a consistent pattern of development between the existing houses.

The above google map extract highlights the infill nature of the site (RED), situated in an established cluster of established and permitted houses close to the train station. (BLUE)

PROJECT IRELAND 2040 NATIONAL PLANNING FRAMEWORK(NPF)

National Policy 15 of the NPF states:

Objective 19 states that rural housing should be afforded a positive presumption “facilitate the provision of single housing in the countryside based on the core consideration of demonstrable economic or social need to live in a rural area.”

It is accepted that the area is an area under strong urban influence, but this does not preclude single housing, it is suggested that the spirit of the policy is to allow single housing for applicants who has demonstrated a social and economic need to live in the area.

We suggest that it is clear that the applicant has an economic need to live in the area due to his extensive equine employment, his considerable racehorse ownership, and the leased land in the area. All these elements support the provision of a house on the site.

Equestrian use is considered an agricultural use under Section 2(1) of the Planning and Development Act, 2000 as amended.

We would respectfully acknowledge that:

“The Settlement Strategy policy for the Eastern & Midlands Region supports provision of policy at local level that seeks to support and protect existing rural economies such as valuable agricultural lands to ensure sustainable food supply, to protect the value and character of open countryside and to support the diversification of rural economies to create additional jobs and maximise opportunities in emerging sectors, such as agribusiness, renewable energy, tourism and forestry enterprise. The policy further requires Local Authorities to manage urban generated growth in Rural Areas Under Strong Urban Influence by ensuring that in these areas the provision of single houses in the open countryside is based on the core consideration of demonstrable economic or social need to live in a rural area, and compliance with statutory guidelines and plans, having regard to the viability of smaller towns and rural settlements.

As the applicant has demonstrated a bone fide and strong economic need to live in the area, the provision of a one-off house can be accommodated on site on this infill site.

We would suggest that the proposed development does not fall within the definition of ribbon development. The definition of ribbon development is not solely based on a quantitative measure of 5 or more houses over a 250m frontage. Ribbon development allows for the quantitative measure to be relaxed when:

- *The type of rural area and circumstances of the applicant.*
- *The degree to which the proposal might be considered infill development, and*
- *The degree to which existing ribbon development would be extended or whether distinct areas of ribbon development would coalesce as a result of the development.*

Planning authorities will need to arrive at a balanced and reasonable view in the interpretation of the above criteria taking account of local circumstances, including the planning history of the area and development pressures.

The site is clearly an “infill” development as it has established houses either side of the site, which is effectively a side garden of a pre-1963 house, the applicants strong economic need to live near his place of employment should allow the planning authority to positively assess the site.

CONCLUSION

It is respectfully submitted that the applicant is an intrinsic rural person who has a demonstrable economic need to live in this rural area.

The applicant has decided to utilize a small infill site as the location of his home place to operate and run his horse breeding equine industry and the site available is an ideal opportunity to use an infill site, close to public transport nodes and close to his employment, as opposed to attempting to build in the open countryside.

We would respectfully ask SDCC to recognize the positive elements of the application in this instance and to determine the application on its merits presented to the planning department.

Regards,

Cert Tech Eng. BEng. MSc Spatial Planning, Dip. Law, Dip. Planning and Environmental Law, MIEI, MIPI.

Medical Treatment Declaration

Section A

IT HAS BEEN DECLARED TO WEATHERBYS THAT THIS HORSE IS DEFINITELY NOT INTENDED FOR SLAUGHTER FOR HUMAN CONSUMPTION. IT IS NOT POSSIBLE TO CHANGE THIS DECISION TO SECTION B AT A LATER DATE.

The table below must be completed when the passport is issued and subsequently each time the horse changes keeper in order to meet DEFRA requirements (section IX) and comply with the Passport Instructions in accordance with Appendix G of the Orders and Rules of Racing.

I, the undersigned owner/representative of the owner declare that the horse described in this identification document is **Not intended for slaughter for human consumption**.
 Weatherbys confirm receipt of this owner/keeper declaration. I declare that the markings in the passport match the horse and that the details on the front page are correct.
 (Confirmez que le signalement du cheval correspond avec les descriptions sur le livret signalétique que les informations sur la première page sont correctes puis ratifiez votre acceptation ci-dessous)

Information shown has been extracted from a recognised Foreign Stud Book and its accuracy, in particular where it relates to names, is not guaranteed.

Copyright Weatherbys Group Ltd.

- IDENTIFICATION DOCUMENT:** The passport is issued to ensure that a horse can be identified at all times and as such **must always accompany the horse**. The passport is not a deed of ownership. It is the property of the issuing authority and may be recalled at any time.
 - ON RECEIPT:**
 - EACH RECIPIENT MUST IMMEDIATELY CHECK THE IDENTITY OF THE HORSE FROM THE MARKINGS CONTAINED THEREIN AND ANY OTHER RELEVANT INFORMATION.** This must be undertaken on EACH occasion that the passport is received. The passport must be signed on the appropriate page to endorse that the records are in order. Discrepancies must be reported immediately to the Racing/Stud Book Authority (as appropriate) of the country in which the horse is currently resident.
 - THE PASSPORT SHOULD ALSO BE CHECKED TO ENSURE THAT THE VACCINATION RECORDS ARE IN ORDER.** Please ensure that your Veterinary Surgeon records all subsequent vaccinations on the appropriate pages.
 - REGISTRATION OF NAME:** The passport must be returned to your Racing Authority with an application for REGISTRATION OF NAME. The passport should be checked and endorsed to confirm acceptance upon return.
 - CHANGE OF MARKINGS/REPORT OF DEATH:** The passport of a horse either in or out of training must be returned to the Racing/Stud Book Authority (as appropriate) of the country in which the horse is currently resident when the horse is: **CASTRATED, ACQUIRES NEW MARKINGS** (e.g. SCARS), **CHANGES APPEARANCE IN ANY OTHER WAY** (Coat colour, etc), **DIES OR IS DESTROYED** along with notification of the relevant change.
 - DAMAGE: THE PASSPORT IS INVALIDATED IF THE SEAL (SPINE) IS DAMAGED OR BROKEN.** In this event make immediate contact with the Racing Authority/Stud Book Authority (as appropriate) of the country in which the horse is currently resident.
 - LOSS: IF THE PASSPORT IS LOST,** the loss must be notified immediately to the Racing Authority/Stud Book Authority (as appropriate) of the country in which the horse is currently resident.
 - FOREIGN TRAVEL: WHEN THE HORSE IS TO TRAVEL ABROAD** the passport must be sent to the Racing/Stud Book Authority (as appropriate) of the country in which the horse is currently resident together with the appropriate application form detailing the date of travel and country of destination. The passport will be endorsed and returned in order to accompany the horse on its journey. Such endorsement will be valid for one month from the date of endorsement and one journey only (for special conditions relating to broodmare/stallion travel see Special Instructions C). Should the horse not travel to the country of destination within one month of the endorsement the endorsement should be cancelled by returning the passport to the Racing/Stud Book Authority or, in Great Britain only, by taking the passport to the racecourse for cancellation by a Jockey Club Official.
 - MEDICINAL TREATMENT:** Attention is drawn to the fact that European legislation requires the completion of sections A or B of the Medicinal treatment pages of the passport in order that a positive indication is given as to whether or not the animal is intended for slaughter for human consumption. If the animal is intended for slaughter for human consumption the Medication Record provided for in Section B(2) must also be completed. If necessary, please consult your Veterinary Surgeon for further advice on this subject.
- N.B.** In addition to the above, the attention of owners in Great Britain is drawn to the Horse Passports Order 1997 (Animal Health Act 1981).

B SPECIAL INSTRUCTIONS FOR TRAINERS

- ATTENDING RACE MEETINGS:** It is the trainer's responsibility to ensure that the passport accompanies the horse when it attends a race meeting. In Great Britain this includes all times that the horse is on property owned, used or controlled by a Managing Executive (Rule 32(ii)).
- DEBUTANTS:** Present the passport to a Veterinary Officer on the occasion of the horse's first run in Great Britain or Ireland. In Great Britain the horse and passport must also be presented on the occasion of its first run after a change of trainer (Rule 33 (1)(a)).
- STANDARD INSPECTIONS:** Present the passport on any other occasion when it is requested by the Veterinary Officer. Please note that inspection by such officials does not imply any warranty that the information contained therein is in order. In Great Britain the horse and its passport must also be presented when it appears on the Veterinary Officers' Passport Required Form (PR1).
- FOREIGN TRAVEL (Endorsements at the racecourse-applicable in Great Britain only):** a trainer wishing to have the passport of a horse travelling abroad to race endorsed at the racecourse by the Clerk of the Scales, must submit the appropriate application by facsimile to the Racing Calendar Office together with a copy of the vaccinations of the horse in question and the name of the racecourse and the date on which the passport will be taken. See Instruction D17 for full details.

C SPECIAL INSTRUCTIONS FOR BRITISH AND IRISH BREEDERS BLOODSTOCK AND SHIPPING AGENTS

- COMMENCEMENT OF STUD CAREER:** WHEN A BROODMARE OR STALLION IS TO ENTER STUD its passport **must** be sent to the Stud Book Authority of the country in which it is to sire or produce foals. The passport will be endorsed by the Stud Book Authority **thereby gaining acceptance** into the Stud Book for that country.
- CHANGE OF OWNERSHIP:** When a change of ownership occurs for a breeding animal the passport must be sent to the stud book authority accompanied by details of the new ownership. The passport will be endorsed with details of the new ownership and returned.
- COVERING:** When a broodmare is sent to be covered the passport must accompany the mare in order that she can be identified before covering.
- HORSE LEAVING YOUR CARE:** When a horse is consigned for sale, sold or put back into training ensure that the passport accompanies the horse to its destination.
- FOREIGN TRAVEL: WHEN A MARE OR STALLION IS TO TRAVEL ABROAD** its passport must be sent to the Stud Book Authority of the country in which it is resident together with the appropriate application form. The passport will be endorsed and returned in order to accompany the horse on its journey. Where the export is of a temporary nature the endorsement will be valid for **nine** months from the date of that endorsement.

ENDORSEMENT OF ACCEPTANCE BY OWNER, TRAINERS (OR APPOINTED AGENTS) FOR BROODMARES, STALLIONS AND HORSES IN TRAINING OR OUT OF STUD

confirm that the markings of the horse agree with those shown in this passport, and that the details on the front page are correct, then endorse your acceptance below.

ENDORSEREMENT D'ACCEPTATION PAR PROPRIETAIRES (OU AGENTS AUTORISÉS) POUR BROODMARES, STALLIONS ET CHEVAUX EN ENTRAÎNEMENT OU NON UTILISÉS POUR LA REPRODUCTION

confirmer que les marquements du cheval correspond avec les descriptions sur le livret et que les renseignements sur la première page sont correctes puis ratifiez votre acceptation ci-dessous.
