

Dear Sirs,

In furtherance to our previous email, please find attached a schematic depiction detailing one of our grounds for objection to the planning application.

In particular, the intended construction will destroy our views to the mountains, and significantly reduce the natural lighting of our home.

Best regards,

Aidan and Kathleen Lonergan

1. Current view from upstairs of our home. Specific attention drawn to view of mountains (hazy on day of photograph)

2. Schematic depiction with intended new construction – resulting in destruction of mountain views and diminished natural lighting
