Record of Executive Business and Chief Executive's Order

Reg. Reference: SD21B/0572 **Application Date:** 11-Nov-2021
Submission Type: New Application **Registration Date:** 11-Nov-2021
Correspondence Name and Address: Brendan Johnston, H2b Architects 20, Moyview, Kildalkey, Navan, Co. Meath
Proposed Development: Attic conversion; raising of gable end to change roof profile to 'Dutch' hip with dormer projecting window to rear for study/playroom use; removing chimney from attic location and roof; all associated site works.
Location: 40, Cypress Grove Road, Dublin 6w
Applicant Name: Adam & Gillian Egan
Application Type: Permission

(COS)

Description of Site and Surroundings

Site Area: stated as 0.0346 Hectares on the application.
Site Visit: 24th of November 2021.

Site Description

The subject site is located on Cypress Grove Road within an existing housing estate in Templeogue. The site consists of a two storey semi-detached dwelling with a hipped roof. The dwelling has an existing rear extension. The streetscape consists of housing of a similar form and character.

Proposal

Permission is being sought for an attic conversion; raising of gable end to change roof profile to 'Dutch' hip with dormer projecting window to rear for study/playroom use; removing chimney from attic location and roof; all associated site works.

Zoning

The subject site is subject to zoning objective 'RES': *'To protect and/or improve residential amenity'* under the South Dublin County Development Plan 2016-2022.

Consultations

None.

SEA Sensitivity Screening – no overlap is recorded in the SEA monitoring system.

Submissions/Observations /Representations

None received.

Relevant Planning History

None relevant to the subject site.

Relevant Enforcement History

None relevant to the subject site.

Pre-Planning Consultation

None recorded for the subject application according to APAS.

Relevant Policy in South Dublin County Council Development Plan 2016 – 2022

Section 2.4.1 Residential Extensions

Policy H18 Residential Extensions

It is the policy of the Council to support the extension of existing dwellings subject to the protection of residential and visual amenities.

Policy H18 Objective 1:

To favourably consider proposals to extend existing dwellings subject to the protection of residential and visual amenities and compliance with the standards set out in Chapter 11 Implementation and the guidance set out in the South Dublin County Council House Extension Design Guide, 2010 (or any superseding guidelines).

Section 11.3.1 Residential

Section 11.3.1 (iv) Dwelling Standards

Section 11.3.1 (v) Privacy

Section 11.3.3 Additional Accommodation

Section 11.3.3 (i) Extensions

Section 11.4.2 Car Parking Standards

Table 11.24 Maximum Parking Rates (Residential Development)

Section 11.4.4 Car Parking Design and Layout

Section 11.7.2 Energy Performance in New Buildings

Section 11.8.2 Appropriate Assessment

South Dublin County Council House Extension Design Guide (2010)

The House Extension design guide contains the following guidance on house extensions.

Elements of Good Extension Design:

Comhairle Chontae Atha Cliath Theas

PR/0056/22

Record of Executive Business and Chief Executive's Order

- *Respect the appearance and character of the house and local area;*
- *Provide comfortable internal space and useful outside space;*
- *Do not overlook, overshadow or have an overbearing effect on properties next door;*
- *Consider the type of extension that is appropriate and how to integrate it; and*
- *Incorporate energy efficient measures where possible.*

Side extensions

- *Extending a hipped roof to the side to create a gabled end or half-hip will rarely be acceptable, particularly if the hipped roof is visually prominent and typical of other houses along the street.*

Attic conversions and dormer windows

- *Use materials to match the existing wall or roof materials of the main house.*
- *Meet Building Regulation requirements relating to fire safety and stairs in terms of headroom on stairs and means of escape.*
- *Locate dormer windows below the ridge of the roof, even if the roof has a shallow pitch.*
- *Locate dormer windows as far back as possible from the eaves line (at least three tile courses).*
- *Relate dormer windows to the windows and doors below in alignment, proportion and character.*
- *In the case of a dormer window extension to a hipped roof, ensure it sits below the ridgelines of the existing roof and matches the materials used in the main house.*
- *Do not obscure the main ridge and eaves features of the roof, particularly in the case of an extension to the side of a hipped roof.*
- *Avoid extending the full width of the roof or right up to the gable ends – two small dormers on the same elevation can often be a suitable alternative to one large dormer.*
- *Avoid dormer windows that are over-dominant in appearance or give the appearance of a flat roof.*
- *Avoid the use of flat-roofed dormer window extensions on houses with hipped rooflines.*

Quality Housing for Sustainable Communities-Best Practice Guidelines, Department of the Environment, Heritage and Local Government, (2007).

Appropriate Assessment of Plans and Projects in Ireland – Guidance for Planning Authorities, Department of the Environment, Heritage and Local Government, (2009).

Assessment

The main issues for assessment relate to:

- Zoning and Council Policy;
- Visual and Residential Amenity;
- Services and Drainage;
- Environmental Impact Assessment; and
- Appropriate Assessment.

Zoning and Council Policy

The proposed development is consistent in principle with zoning objective RES – ‘*To protect and/or improve residential amenity*’. New residential extensions to existing dwellings are permissible in principle under this zoning objective, subject to their being in accordance with the relevant provisions of the South Dublin County Council House Extension Design Guide 2010.

Visual and Residential Amenity

Change in roof profile

The proposed development would involve extending the existing hipped roof to a ‘Dutch’ hip roof. Under the House Extension Design Guide “*Extending a hipped roof to the side to create a gabled end or half-hip will rarely be acceptable, particularly if the hipped roof is visually prominent and typical of other houses along the street*”. The streetscape and wider area consist largely of semi-detached dwellings with a variety of roof types. The proposed ‘Dutch’ hip is generally considered to be acceptable in this instance due to the eclectic mix of roof types.

Dormer window & attic conversion

The proposed development would provide for the construction of a flat-roofed dormer extension on the rear slope of the roof. The House Extension Design Guide recommends that dormers are set at least 100mm from the ridge of the roof and at least three tile courses from the eaves. The dormer extension would be setback from the roof ridge and at least three tile courses from the eaves. The extension would also be sufficiently setback from the sides.

The proposed materials and finishes of the dormer extension would be timber framing. This is considered acceptable given that the development would not be highly visible from the streetscape and wider vicinity. The proposed extension would be setback over 18m from the rear

Comhairle Chontae Atha Cliath Theas

PR/0056/22

Record of Executive Business and Chief Executive's Order

boundary. It is therefore not considered that the dormer window would create unacceptable levels of overlooking to neighbouring properties or gardens.

The proposed attic conversion would have a floor to ceiling height of approx. 2.4m and is therefore considered to be habitable. The room is noted for use as a study/playroom.

In summary, the proposed development is considered to generally comply with the guidance set out in the South Dublin County Council House Extension Design Guide 2010 and would have an acceptable impact in terms of visual and residential amenity.

Screening for Environmental Impact Assessment

Having regard to the modest nature of the proposed development, and the distance of the site from nearby sensitive receptors, there is no likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

Screening for Appropriate Assessment

The applicant has not provided information to assist the screening for Appropriate Assessment. Having regard to the nature of the development, connection to public services and the distance from the Natura 2000 sites the proposed development would not require a Stage 2 Appropriate Assessment.

Development Contributions

Pre-existing extensions = 21.8sq.m

Proposed attic conversion (habitable) = 39sq.m

40sq.m exemption less 21.8sq.m used up on previous extension leaves 18.2sq.m remaining of exemption.

39sq.m less 18.2sq.m remaining of exemption leaves an assessable area of 20.8sq.m.

Assessable area = 20.8sq.m

SEA monitoring

Building Use Type Proposed: Residential

Floor Area: 39sq.m

Land Type: Brownfield/Urban Consolidation.

Site Area: 0.0346 Hectares.

Conclusion

Having regard to the:

- provisions of the South Dublin County Development Plan 2016-2022 and South Dublin County Council House Extension Design Guide (2010),
- the established character of the area, and
- the nature and scale of the proposed development,

it is considered that, subject to compliance with the conditions set out below, the proposed development would be in compliance with Council policy in relation to extensions to dwelling houses, would not seriously injure the amenities of the area or of property in the vicinity and would, therefore, be in accordance with the proper planning and sustainable development of the area.

Recommendation

I recommend that a decision be made pursuant to the Planning & Development Act 2000, as amended, for the reasons set out in the First Schedule hereto, to Grant Permission for the said development in accordance with the said plans and particulars, subject to the condition(s) specified in the Second Schedule hereto, the reasons for the imposition of the said condition(s) being as set out in the said Second Schedule.

FIRST SCHEDULE

It is considered that the proposed development accords with the policies and objectives of South Dublin County Council, as set out in the South Dublin County Council Development Plan 2016 - 2022 and subject to the conditions set out hereunder in the Second Schedule is hereby in accordance with the proper planning and sustainable development of the area.

SECOND SCHEDULE

Conditions and Reasons

1. Development in accordance with submitted plans and details.
The development shall be carried out and completed in its entirety fully in accordance with the plans, particulars and specifications lodged with the application, save as may be required by the other conditions attached hereto.
REASON: To ensure that the development shall be in accordance with the permission and that effective control be maintained.
2. (a) External Finishes.
All external finishes shall harmonise in colour or texture that is complementary to the house or its context.
REASON: In the interest of visual amenity.

Comhairle Chontae Atha Cliath Theas

PR/0056/22

Record of Executive Business and Chief Executive's Order

(b) Restriction on Use.

The house and the proposed extension shall be jointly used as a single dwelling unit for residential purposes and shall not be sub-divided or used for any commercial purposes, and the extension shall not be sold, let (including short-term letting), leased or otherwise transferred or conveyed, by way of sale, letting or otherwise save as part of the single dwelling unit.

REASON: To prevent unauthorised development.

(c) Drainage - Irish Water.

(i) The water supply and drainage infrastructure, shall comply with the requirements of Irish Water.

(ii) There shall be complete separation of the foul and surface water drainage systems, both in respect of installation and use. All new precast surface water manholes shall have a minimum thickness surround of 150mm Concrete Class B.

(iii) All drainage works for this development shall comply fully with the Greater Dublin Regional Code of Practice for Drainage Works.

REASON: In the interests of public health, the proper planning and sustainable development of the area and in order to ensure adequate water supply and drainage provision.

(d) Minimise Air Blown Dust.

During the construction and or demolition phase of the development, Best Practicable Means shall be employed to minimise air blown dust being emitted from the site. This shall include covering skips and slack-heaps, netting of scaffolding, daily washing down of pavements or other public areas, and any other precautions necessary to prevent dust nuisances. The applicant/developer shall comply with British Standard B.S. 5228 Noise Control on Construction and Open sites and British Standard B.S. 6187 Code of Practice for demolition.

REASON: In the interest of public health and to uphold the Council's policies set out in the South Dublin County Council Development Plan.

(e) Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, Equipment or Machinery (to include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall only be operated on the site between 7.00 hours and 19.00 hours weekdays and between 9.00 hours and 13.00 hours on Saturdays. No works shall take place at any time on Sundays, Bank Holidays or Public Holidays.

Comhairle Chontae Atha Cliath Theas

PR/0056/22

Record of Executive Business and Chief Executive's Order

Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

3. Financial Contribution.

The developer shall pay to the Planning Authority a financial contribution of €2,173.39 (Two thousand, one hundred and seventy three Euro and thirty nine cent), in respect of public infrastructure and facilities benefiting development within the area of the Planning Authority, that is provided, or intended to be provided by or on behalf of the authority, in accordance with the terms of the Development Contribution Scheme 2021 - 2025, made under Section 48 of the Planning and Development Acts 2000-2011 (as amended).

The contribution shall be paid prior to commencement of development, or in such phased payments as the Planning Authority may facilitate. Contributions shall be payable at the rate pertaining to the year in which implementation of the planning permission is commenced as outlined in the South Dublin County Council Development Contribution Scheme 2021 - 2025.

REASON: The provision of such facilities will facilitate the proposed development. It is considered reasonable that the payment of a contribution be required, in respect of public infrastructure and facilities benefiting development in the area of the Planning Authority and that is provided, or that is intended will be provided, by or on behalf of the Local Authority.

NOTE RE: CONDITION - Please note that with effect from 1st January 2014, Irish Water is now the statutory body responsible for water services. Further details/clarification can be obtained from Irish Water at Tel. 01 6021000 or by emailing
