Planning Application Number SD 21A/0334

To whom it concerns,

I would like to lodge my observations in relation to the above Planning Application.

1. I believe that the proposed size and scope of this proposed development is visually dominant and overbearing
2. I believe that this development would seriously injure the amenities in the area.
3. This development fails to successfully integrate into the existing character of the area given the design strategy pursued and the visual prominence of the site
4. The road on which the proposed development is situated is one of six roads leading on to a very busy roundabout and will seriously impact traffic congestion.
5. The proposed development has 6 car parking spaces allocated for 10 apartments some of which are two bed. The surrounding residential area is already congested and does not have enough parking facilities to cope with current levels. There are no Traffic Lights or pedestrian crossing on this section of Lower Ballymount Road and in the past, we were told by the Council that the road is too narrow to accommodate them - This I would contend, indicates that the road is too small for such a development as the one proposed.
6. Lower Ballymount road (site of proposed development) has no Traffic lights or Pedestrian crossing. The residents were advised previously by the Council that the road is too narrow to accommodate them. This surely indicates therefore that this road is also too small for such a large development.

7. In closing I would ask that the Council is aware of the size and scale of the road where the proposed development is to be constructed as it is a small local road. I am a long time resident of the area and feel that due to the fact that there are two local authorities (Dublin City Council, and South Dublin County Council) responsible for this area, that there can be lack of communication and future planning awareness between the two.

I look forward to your response.

Kind Regards,

Mary and Edward Potts
