

17th February 2022

Planning Dept,
South Dublin County Council
County Hall Tallaght,
Dublin 24,
D24 A3XC

Ref: 21056

RE: Additional Information, Register Reference: SD21A/0336 (Replacement of existing signage on the front (Northern) Facade with a new sign measuring approximately 37.95sq.m; the construction of a 50sq.m external WEEE enclosure; the installation of 2 external air handling units, condensers, distribution ductwork and all associated site works.).

Dear Sir / Madam,

Please find our response below to South Dublin County Council's request for additional Information, Register Reference: SD21A/0336. We have included South Dublin County Council's query for clarity:

1. The applicant is requested to provide swept-path analysis of heavy goods vehicles to confirm that the proposed developments will not prevent them from safely entering and egressing the site, and turning within the site as necessary.

Response: Please see attached, Garland Consulting Engineer's Vehicle tracking analysis drawing (001 Rev D) showing a heavy goods vehicle entering the site, exiting the site and completing an unobstructed full turn within the site. Please note that we have shown the vehicle exiting to the left and to the right of the site for clarity, however, since the site is located within a cul-de-sac, HGV's will exit to the right as they exit the retail park onto the R113 or R833. It should also be noted that there have been no revisions made to the compound entrance area or gates and they remain as granted under planning reg reference SD06A/0801.

We trust that you find the above in order and look forward to your decision in due course.

Yours Sincerely,

A handwritten signature in blue ink, appearing to read 'Derek Fitzharris', written over a horizontal line.
