Colm,

We received your contact details from Damian o Neill at the IAA. Please see attached email.

Our client has been given planning permission for installation of solar panels on the roof of a new warehouse we are building. One of the planning conditions is the written agreement of the IAA, Air Corp and operators of helicopters from Tallaght University Hospital that this development will not affect their operation. I have attached the full conditions with the relevant highlighted.

I have also attached the relevant Glint and Glare reports submitted with the planning application.

I would appreciate if you could review the attached and revert to fulfil our planning conditions.

If you have any queries or require any further detail, please do not hesitate to contact myself

Thanking you for your assistance

Brian
