Re: Additional Information request for planning application No. SD21B/0649 for extensions and alterations to 3 Knocklyon Ave, Knocklyon, D.16.

Dear Sir / Madam,

Further to your request for additional information, see my response in point form below.

1. The enclosed drawing No. FI-01 indicates the removal of the southern high level window at bedroom 4 and the substantial reduction of the size of the window on the southern elevation to serve the stairwell which will be obscured glass.
2. See enclosed drawing No FI-01 correcting the difference in heights and indicating the dimensions of the dormers.
3. Drawing No. FI-01 shows the removal of the flat roof element at first floor front replacing with the suggested pitched roof which is more in keeping with the original house.
4. The front dormer serving the wardrobe has been removed from the front elevation and relocated to the rear.

I trust you find the enclosed to your satisfaction and hope that you will look favourably on our application.

Yours sincerely,

Peter Kavanagh
