

**RURAL HOUSING COMPLIANCE STATEMENT REPORT for  
Frank Reynolds, Ringwood, Hazelhatch, Celbridge, Co. Kildare.**

December 2021

**INTRODUCTION & PROPOSED DEVELOPMENT.**

The applicant Frank Reynolds is applying for permission to construct a detached dormer bungalow, secondary effluent treatment system, vehicular entrance and all associated site works. Frank is a racehorse breeder and works fulltime in the equine industry.

**PLANNING HISTORY**

There is one refused planning application on the site, from 2000, SA00/0276. Permission was refused mainly due to lack of local need of the applicant. Frank Reynolds purchased the site in 2009, please find land registry folio DN19266F attached, confirming same.

Frank Reynolds, leases 20.18 acres of land in Ringwood, Hazelhatch, directly behind the proposed site, a lease agreement can be provided to the planning authority but for GDPR reasons we are excluding it from the planning application. However, should the planning authority require same we can email or provide a hard copy of same.

The google map image above highlights the applicants leased lands (YELLOW) in relation to the proposed development of his home (RED)

### ZONING

The site is zoned "RU" in the SDCC Development Plan, which is defined as "To protect and improve rural amenity and to provide for the development of agriculture". Residential development is "Open for Consideration" under this zoning.

### RELEVANT POLICY IN SDCC DEVELOPMENT PLAN.

Policy H21.

The applicant is claiming compliance with the zoning objective "RU" on the following grounds:

The applicant's equine development is an intrinsic agricultural development which is consistent with the zoning policy on the lands.

Frank is a full-time racehorse breeder and has 55 horses in his ownership – please find a number of copies of passports attached.

**Policy H26 – Occupancy Condition.**

The applicant will accept any occupancy condition attached to a grant of permission should the planning authority be mindful to grant.

**ARCHITECTURAL FORM AND DESIGN.**

The house has been designed to be cognizant of the existing established architectural pattern of development in the area. The site is located within 200m of Hazelhatch Train Station and is an infill site on a transitional area between rural and urban.

The house will take advantage of a slightly lower ground level to accommodate the house on the site and will form a consistent pattern of development between the existing houses.

The above google map extract highlights the infill nature of the site (RED), situated in an established cluster of established and permitted houses close to the train station. (BLUE)

**PROJECT IRELAND 2040 NATIONAL PLANNING FRAMEWORK(NPF)**

National Policy 15 of the NPF states:

Objective 19 states that rural housing should be afforded a positive presumption "facilitate the provision of single housing in the countryside based on the core consideration of demonstrable economic or social need to live in a rural area."

It is accepted that the area is an area under strong urban influence, but this does not preclude single housing, it is suggested that the spirit of the policy is to allow single housing for applicants who has demonstrated a social and economic need to live in the area.

We suggest that it is clear that the applicant has an economic need to live in the area due to his extensive equine employment, his considerable racehorse ownership, and the leased land in the area. All these elements support the provision of a house on the site.

*Equestrian use is considered an agricultural use under Section 2(1) of the Planning and Development Act, 2000 as amended.*

We would respectfully acknowledge that:

*"The Settlement Strategy policy for the Eastern & Midlands Region supports provision of policy at local level that seeks to support and protect existing rural economies such as valuable agricultural lands to ensure sustainable food supply, to protect the value and character of open countryside and to support the diversification of rural economies to create additional jobs and maximise opportunities in emerging sectors, such as agribusiness, renewable energy, tourism and forestry enterprise. The policy further requires Local Authorities to manage urban generated growth in Rural Areas Under Strong Urban Influence by ensuring that in these areas the provision of single houses in the open countryside is based on the core consideration of demonstrable economic or social need to live in a rural area, and compliance with statutory guidelines and plans, having regard to the viability of smaller towns and rural settlements.*

As the applicant has demonstrated a bone fide and strong economic need to live in the area, the provision of a one-off house can be accommodated on site on this infill site.

We would suggest that the proposed development does not fall within the definition of ribbon development. The definition of ribbon development is not solely based on a quantitative measure of 5 or more houses over a 250m frontage. Ribbon development allows for the quantitative measure to be relaxed when:

- *The type of rural area and circumstances of the applicant.*
- *The degree to which the proposal might be considered infill development, and*
- *The degree to which existing ribbon development would be extended or whether distinct areas of ribbon development would coalesce as a result of the development.*

*Planning authorities will need to arrive at a balanced and reasonable view in the interpretation of the above criteria taking account of local circumstances, including the planning history of the area and development pressures.*

The site is clearly an "infill" development as it has established houses either side of the site, which is effectively a side garden of a pre-1963 house, the applicants strong economic need to live near his place of employment should allow the planning authority to positively assess the site.

## CONCLUSION

It is respectfully submitted that the applicant is an intrinsic rural person who has a demonstrable economic need to live in this rural area.

The applicant has decided to utilize a small infill site as the location of his home place to operate and run his horse breeding equine industry and the site available is an ideal opportunity to use an infill site, close to public transport nodes and close to his employment, as opposed to attempting to build in the open countryside.

We would respectfully ask SDCC to recognize the positive elements of the application in this instance and to determine the application on its merits presented to the planning department.

Regards,

**Cert Tech Eng. BEng. MSc Spatial Planning, Dip. Law, Dip. Planning and Environmental Law, MIEI, MIPI.**

# MEMORANDUM OF LICENCE AGREEMENT

Frank Reynolds, Hazelhatch, Celbridge, in the County of Kildare (hereinafter the license) hereby agree to take for the Term of 12 months from 15<sup>th</sup> July 2018, with a rolling contract every year until 2028, subject to the conditions below, fields to be used wholly or mainly for the purpose of horse training and grazing, in that portion of the Townland of Hazelhatch in the Barony of Newcastle, in the County of Dublin, in the possession of Tudor Homes Ltd. (hereinafter called the owner) containing 28 acres measure or thereabouts (coloured yellow on the Attached Map A). I shall pay on the signing hereof a sum of €3360 the said rent to be paid clear of all deductions

Owner.....  
Witness.....  
Licensee.....  
Witness.....  
Date: 4<sup>th</sup> October 2018

## LICENCE AGREEMENT CONDITIONS .

1. The lands the subject of this Licence Agreement are set for horse training/grazing only and not by way of tenancy for the period(s) and at the payment(s) specified in the memorandum before.
2. The Licensee referred to in the Memorandum shall not put on the lands any animals other than horses and will carry Public Liability Insurance in respect of these animals.
3. The Owner shall not be liable for any injury or damage whatsoever caused to the Licensee (or to any person claiming through the Licensee) or to any animals during the time that they are upon the lands and no claim in respect thereof shall be made against the owner by the Licensee.
4. The Licensee shall not, without permission in writing, previously obtained from the owner, license or permit any other person or persons to enter the lands whether for the purpose of horse training or otherwise.
5. The Licensee shall on or before the termination of this License Agreement remove all the animals and structures off the lands.

Medical Treatment Declaration

Section A

IT HAS BEEN DECLARED TO WEATHERBYS THAT THIS HORSE IS DEFINITELY NOT INTENDED FOR SLAUGHTER FOR HUMAN CONSUMPTION. IT IS NOT POSSIBLE TO CHANGE THIS DECISION TO SECTION B AT A LATER DATE.

The table below must be completed when the passport is issued and subsequently each time the horse changes keeper in order to meet DEFRA requirements (section IX) and comply with the Passport Instructions in accordance with Appendix G of the Orders and Rules of Racing.

I, the undersigned owner/representative of the owner declare that the horse described in this identification document is **Not intended for slaughter for human consumption**.  
Weatherbys confirm receipt of this owner/keeper declaration. I declare that the markings in the passport match the horse and that the details on the front page are correct.

(Confirmez que le signalement du cheval correspond avec les descriptions sur le livret signalétique que les informations sur la première page sont correctes puis ratifiez votre acceptation ci-dessous.)
