Date: 05 April 2022
To: Keith Justice **Tel:** 086-4136087
Client: Keith Justice
Site: Brittas
Email: keith.justice@gmail.com
Ref: Quote for an Oakstown Super BAF 12 PE Wastewater treatment system.
Notes:

- ▶ System based on the standard EPA requirements of 20 / 30 / 20 (20mg BOD / Litre, 30mg Suspended Solids & 20mg of NH4 / Litre).
- ▶ Max. Hydraulic Loading 1800 litres per day
- ▶ Max. BOD Loading 0.72 Kgs per day

Further to your enquiry, we have pleasure in quoting as follows: -

Oakstown Super BAF 12 PE Wastewater Treatment System	€	5,500.00
VAT @ 13.5%	€	742.50
Total	€	<u>6,242.50</u>

The above price includes VAT, delivery, installation by truck mounted crane, electric control panels, water pump (9m), air blower, concrete risers to a maximum height of 900mm above invert level, 1 year maintenance contract & a 2 year guarantee on all components.

Please note: Occasionally some extensive pressurised percolation areas / soil polishing filters particularly with small bore piping may require sub pumps with significantly higher specification.

Price excludes civil works, distribution box risers & construction of percolation areas.

Payment Terms

COD

Please allow for a potential contingency of 5% of gross in the event of additional

configurations during manufacture, installation and commissioning.

Should you have any further queries please do not hesitate to contact us on 046 9431389.

Yours sincerely,

Joe Carroll
