

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

Reg. Reference: S25422/03 **Application Date:** 01-Mar-2022
Submission Type: S254 Licence **Registration Date:** 01-Mar-2022
Application

Correspondence Name and Address: Stephen Tiernan, NBI Infrastructure Unit 3009, Lake Drive, Citywest Business Campus, Dublin 24

Proposed Development: Erect 5 x 9m wooden poles and 57683m overground fibre optic cable. Licence No. 2022DS0535 - T1.

Location: DA040 - 2 – Dunboyne/Clonee – South Dublin

Applicant Name: NBI Infrastructure

Application Type: S254 Licence

Site Description:

The application refers to an area that the applicant has labelled "DA040". This is a mapped area between Kildare and South Dublin Counties and Dublin City and which, within the county of South Dublin, includes lands around Casement Aerodrome and Clonburris. The applicant has provided a Summary Report with maps. Figures 2 and 3 of that report show the addresses relevant to this application to be:

- 3 locations west of the 12th Lock Bridge, on the southern side of the Grand Canal at that location, in Grange Castle;
- 1 location on Baldonnell Road, south-east of Casement Aerodrome and west of the Camac River and National Vehicle Distribution site, in Baldonnell;
- 4 locations along an unnamed road at Monaleion Commons Lower in Baldonnell, west of the National Vehicle Distribution site.

Licence Application Proposal

The applicant has provided a reference to a licence application on the MapRoad Licencing website, which refers to "5 poles (pole, cabinet, mast)".

Any licence granted under this application can reflect the 8 locations only as there is no fixed record of any other location.

The applicant has sought 12-month licences as per their application form.

Consultations

Broadband Officer No report received.
EHO No report received.

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

Roads	No report received.
Public Realm	No objection, subject to conditions.
Irish Water	No objection, subject to conditions.
Water Services	No objection, subject to conditions.

Legislation

The license application has been made under Section 254 of the Planning and Development Act, 2000 as amended. Section 254(5) of the Planning and Development Act as amended outlines the criteria to which the Planning Authority shall have regard:

- (a) the proper planning and sustainable development of the area,
- (a) any relevant provisions of the development plan, or a local area plan,
- (c) the number and location of existing appliances, apparatuses or structures on, under, over or along the public road, and
- (d) the convenience and safety of road users including pedestrians.

Relevant Policy in South Dublin County Council Development Plan 2016-2022

7.4.0 Information and Communications Technology

Policy IE4 Information and Communications Technology (ICT)

It is the policy of the Council to promote and facilitate the sustainable development of a high quality ICT network throughout the County in order to achieve balanced social and economic development, whilst protecting the amenities of urban and rural areas.

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

IE4 Objective 1:

To promote and facilitate the provision of appropriate telecommunications infrastructure, including broadband connectivity and other innovative and advancing technologies within the County.

IE4 Objective 2:

To co-operate with the relevant agencies to facilitate the undergrounding of all electricity, telephone and television cables in urban areas wherever possible, in the interests of visual amenity and public health.

IE4 Objective 3:

To permit telecommunications antennae and support infrastructure throughout the County, subject to high quality design, the protection of sensitive landscapes and visual amenity.

IE4 Objective 4:

To discourage a proliferation of telecommunication masts in the County and promote and facilitate the sharing of facilities.

IE4 Objective 5:

To actively discourage the proliferation of above ground utility boxes throughout the County and to promote soft planting around existing ones and any new ones that cannot be installed below the surface to mitigate the impact on the area.

IE4 Objective 6:

To require the identification of adjacent Public Rights of Way and established walking routes by applicants prior to any new telecommunication developments (including associated processes) and to prohibit telecommunications developments that impinge thereon or on recreational amenities, public access to the countryside or the natural environment.

Section 11.6.2 Information and Communications Technology

In the consideration of proposals for telecommunications antennae and support structures, applicants will be required to demonstrate:

- Compliance with the Planning Guidelines for Telecommunications Antennae and Support Structures (1996) and Circular Letter PL 07/12 issued by the DECLG (as may be amended), and to other publications and material as may be relevant in the circumstances,
- **On a map, the location of all existing telecommunications structures within a 2km radius of the proposed site**, stating reasons why (if not proposed) it is not feasible to share existing facilities having regard to the Code of Practice on Sharing of Radio Sites issued by the Commission for Communications Regulation (2003),
- **Degree to which the proposal will impact on the amenities of occupiers of nearby properties, or the amenities of the area (e.g. visual impacts of masts and associated**

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

equipment cabinets, security fencing treatment etc) and the potential for mitigating visual impacts including low and mid-level landscape screening, tree-type masts being provided where appropriate, colouring or painting of masts and antennae, and considered access arrangements, and

- The significance of the proposed development as part of the telecommunications network.

Assessment

The main issues for consideration are:

- Zoning and council policy
- Scope of the Licence
- Siting of the Proposed Overground Electronic Communications Infrastructure
- Visual Impact, Residential Amenity and Consideration of Alternative Sites
- Roads
- Public realm
- Drainage

Zoning and Council Policy

Council policy is generally supportive of sustainable development of ICT infrastructure in the County subject to protecting the amenities of urban and rural areas. The National Broadband Plan includes works to rollout broadband access to rural areas by National Broadband Ireland (the applicant).

Scope of the Licence

The applicant has indicated that they are applying for a 12-month licence for 5 no. poles. 8 no. poles are indicated on the drawings submitted. 5 poles with mast and cabinet are indicated on Maproad Licencing website application associated with this application. The licence should confirm what is being licenced and this should be restricted to those locations the council has actually received information for.

Given the omission of 3 mapped locations (See below), the licence will cover 5 locations and therefore 5 poles. No details of cabinets have been provided.

Siting of the Proposed Overground Electronic Communications Infrastructure

The licensing provisions are set out in Section 254 of the Planning and Development Act 2000, as amended. This requires persons seeking to erect overground telecommunications infrastructure to obtain a licence from a planning authority where it is intended to erect such infrastructure on, under, over or along a public road. Section 2 of the Act states that "public road" has the same meaning as in the Roads Act, 1993. Section 2 of the Roads Act 1993 states:

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

“public road” means a road over which a public right of way exists and the responsibility for the maintenance of which lies on a road authority.

Section 2 of the Roads Act states:

“road” includes - (a) any street, lane, footpath, square, court, alley or passage, (b) any bridge, viaduct, underpass, subway, tunnel, overpass, overbridge, flyover, carriageway (whether single or multiple), pavement or footway, (c) any weighbridge or other facility for the weighing or inspection of vehicles, toll plaza or other facility for the collection of tolls, service area, emergency telephone, first aid post, culvert, arch, gully, railing, fence, wall, barrier, guardrail, margin, kerb, lay-by, hard shoulder, island, pedestrian refuge, median, central reserve, channelliser, roundabout, gantry, pole, ramp, bollard, pipe, wire, cable, sign, signal or lighting forming part of the road, and (d) any other structure or thing forming part of the road and— (i) necessary for the safety, convenience or amenity of road users or for the construction, maintenance, operation or management of the road or for the protection of the environment, or (ii) prescribed by the Minister.

The 3 locations near the 12th Lock Bridge are not on the public road under the above definition and should be omitted from the licence. These appear to be proposed along the canal towpath.

The other locations indicated are all in the margins of public roads in the control of the council, complying with the above definition.

Visual Impact, Residential Amenity and Consideration of Alternative Sites

The applicant has provided a drawing of the proposed masts. This profile of mast is typical of those erected under s254 licences and is acceptable. The applicant has provided no imagery / drawings or any details of the ‘cabinet’ proposed, nor where such cabinets would be located.

In particular it would be entirely inappropriate to place overground cabinets along the Grand Canal due to the cluttered appearance these would give the area, and underground options should be pursued there. As such are being omitted from the licence, this issue does not need to be resolved by condition.

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

Roads

The Roads Department has proposed the following conditions.

- (a) A construction traffic management plan for the written agreement of the Planning Authority. The construction traffic management plan shall include details on the maintenance routine during the initial and operational phase of the infrastructure, in essence, the roads department would like to see proposed parking/set down location for maintenance crews.
- (b) No vehicle shall be allowed to park, intrude or obstruct public footpaths/cycle line during the construction and operational stage unless agreed through the construction and traffic management plan.
- (c) The applicant is requested to submit a plan showing the location of undergrounds services if any are present at the proposed development. The applicant is requested to also set out any impact the proposal would have on such services.

This is noted and is acceptable.

Public Realm

The Public Realm Department has proposed the following conditions:

1. No development shall take place until an Arboricultural Impact Assessment (AIA) for those trees and roadside hedgerows which will be impact by the development works has been submitted to the Planning Authority. The (AIA) shall provide information to show how trees/hedging worthy of retention would be protected from damage and justification and mitigation measures for any tree removal proposed. The AIA shall identify areas to be excluded from the proposed works, protective fences if required for these exclusion areas and for individually retained trees, identify acceptable routes for all services in relation to tree root zones, identify location(s) for replacement planting if required and show existing and proposed levels. All works shall be carried out in accordance with the agreed AIA.

REASON: To ensure that the trees on site are adequately protected, to safeguard the character and appearance of the area, in accordance with policy G2 Objective 9, G4 Objective 5, G2 Objective 13, G6 Objective 1, HCL15 Objective 3 of the CDP 2016-2022.

2. Tree Survey.

No operations shall commence on site in connection with the proposed development works until a detailed Arboricultural Method Statement (AMS) in accordance with

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

BS5837:2012 Trees in relation to design, demolition and construction – Recommendations has been submitted to and approved in writing by the Planning Authority. All works shall be carried out in accordance with the (AMS) and If during the proposed construction works, it becomes apparent that further works or changes are required, work shall not progress any further on site until the applicant has secured a site meeting with a suitably qualified professional to agree the details and phasing of any tree surgery works not detailed in the Arboricultural Method Statement (AMS). A written schedule for all proposed tree and hedgerow tree pruning and removal works shall be submitted to and approved in writing by the Planning Authority.

REASON: To ensure that the trees on site are adequately protected, to safeguard the character and appearance of the area, in accordance with policy G2 Objective 9, G4 Objective 5, G2 Objective 13, G6 Objective 1, HCL15 Objective 3 of the CDP 2016-2022.

Drainage

The Environmental Services Department has stated no objection subject to compliance with Part H of the Building Regulations (Drainage and Wastewater disposal). Irish Water has stated no objection subject to connection agreements where necessary.

Screening for Environmental Impact Assessment

Having regard to the modest nature of the proposed development, and the distance of the site from nearby sensitive receptors, there is no likelihood of significant effects on the environment arising from the proposed development. The need for environmental impact assessment can, therefore, be excluded at preliminary examination and a screening determination is not required.

Screening for Appropriate Assessment

The applicant has provided an Appropriate Assessment Screening Report. Due to the minor and localised nature of the works, and the absence of loss/alteration of QI habitats designated for the European sites due to the proposed development, the applicant's environmental consultant considers that the proposed development will not cause any significant negative impacts in relation to habitat loss/alteration at any European site.

The applicant has provided an Appropriate Assessment Screening Report in relation to the application, which considers the impact of development on all European sites within the 'DA015' area and those sites downstream in Dublin Bay. The report concludes that the possibility may be excluded that the proposed project will have a likely significant effect on any of the Natura 2000 sites. The report notes that infrastructure is already in place and that the cables proposed will not cause any additional impact except in the event that they were to fall. The report also notes that cables are being run along verges to the public road, which are not qualifying interests.

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

Taking into account:

- the nature, size and location of the proposed works and possible impacts arising from the installation works.
- the qualifying interests and conservation objectives of the Natura sites.
- the potential for in-combination effects arising from other plans and projects.

The possibility may be excluded that the proposed works will have a significant effect individually or in combination with other plans or projects on a European site, therefore Stage 2 Appropriate Assessment is not required.

Conclusion

The proposed development is suitable for licencing by the Planning Authority subject to the conditions attached.

Recommendation

I recommend that a decision be made pursuant to Section 254 of the Planning & Development Act 2000, as amended, for the reasons set out in the First Schedule hereto, to Grant a Licence for the said development in accordance with the said plans and particulars, subject to the condition(s) specified in the Second Schedule hereto, the reasons for the imposition of the said condition(s) being as set out in the said Second Schedule.

FIRST SCHEDULE

It is considered that the proposed development accords with the policies and objectives of South Dublin County Council, as set out in the South Dublin County Council Development Plan 2016 - 2022 and subject to the conditions set out hereunder in the Second Schedule is hereby in accordance with the proper planning and sustainable development of the area.

SECOND SCHEDULE

Conditions and Reasons

1. Plans and Particulars.
 - (a) The telecommunications street poles shall be installed and completed in their entirety fully in accordance with the plans, particulars and specifications lodged with this Section 254 Licence application, and additionally the plans, particulars and specifications required as per condition 2, save as may be required by the other conditions attached hereto, and the height and other dimensions as specified in those particulars shall not be exceeded.
 - (b) This licence relates to five 9m high wooden poles at Baldonnell Road and Moneenalion Commons Lower and cabling. Additional poles and cabinets suggested in the documentation provided, but which do not appear in the plans and particulars

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

submitted, are not part of the licence.

REASON: To ensure that the development shall be in accordance with the permission and that effective control be maintained.

2. Duration of Licence.

The duration of this licence is for 12 months only. The licence shall expire 12 months from the date of the final grant of the licence. Within 3 months of this date any poles, cabinets or any other structures associated with this licence shall be removed and reinstated to the satisfaction of the Roads Department of South Dublin County Council and as specified in other conditions.

REASON: To allow the Planning Authority to review the impact of the licenced works the consider the merits or feasibility of any alternative solutions.

3. Withdrawal of Licence.

Notwithstanding any other conditions of this grant, South Dublin County Council reserves the right to withdraw the licence under section 254(4) of the Planning and Development Act, 2000, as amended, where in the opinion of the planning authority by reason of the increase or alteration of traffic on the road or of the widening of the road or of any improvement of or relating to the road, the appliance, apparatus or structure causes an obstruction or becomes dangerous, the authority may by notice in writing withdraw the licence and require the licensee to remove the appliance, apparatus or structure at his or her own expense.

REASON: To ensure that development is effectively managed.

4. South Dublin County Council Lands.

This licence does not permit any works on private property.

REASON: To ensure the proper application of Section 254 of the Planning and Development Act 2000, as amended.

5. Obsolescence.

In the event of obsolescence, or withdrawal or expiry of the license without renewal, the telecommunications poles shall be removed from the site and the site reinstated at the expense of the applicant or licensee as per the following, unless otherwise agreed with the Planning Authority:

- the verge surface shall be reinstated with selected soil material to a depth of 150mm;
- The verge shall be raked, level and compacted well around any infrastructure, and re-seeded with a grass seed mix predominately containing Dwarf Perennial Ryegrass.

These works are to be undertaken by a competent and experienced Landscape Contractor, to the satisfaction of the Planning Authority.

REASON: To protect the amenities of the area.

6. No Additional Dishes, Antennae or Other Equipment.

No additional cabling or other equipment, other than the cabling for which a licence has been sought, shall be attached to the telecommunications poles without first obtaining the

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

prior written approval of the Planning Authority.

REASON: In the interest of the visual amenity of the area; to ensure that the development shall be in accordance with the permission and that effective control be maintained and in the interest of the proper planning and sustainable development of the area.

7. Change of Ownership.

The applicant shall notify the Planning Authority of any change of ownership, transfer to a new operator or any subsequent agreements to the share the telecommunications poles.

REASON: To ensure that the developments shall be in accordance with the Licence granted and that development is effectively managed.

8. Change to Details of Licence Application.

If during the works the Licence Holder becomes aware of information that would materially alter the details previously submitted in advance of the works, it shall immediately notify South Dublin County Council and request approval to proceed.

REASON: To ensure proper application of the licence.

9. Safe Siting.

(a) Pole locations shall comply with NBI guidelines for assessing locations for new roadside utility poles in rural areas.

(b) The applicant shall ensure that the development and associated works will not cause any issue that would endanger public safety by reason of traffic hazard or obstruction to road users.

REASON: To ensure traffic safety.

10. Services.

(a) The poles shall be separated from any underground public utility by a distance of no less than 3 metres, except by written agreement with the responsible party for that utility. In the case of watermains and wastewater sewers, the responsible party is Irish Water. In the case of the surface water sewers, the responsible party is South Dublin County Council. Such agreements shall be copied to the SDCC Planning Department.

(b) The licence holder must ensure that pole erecting does not impact or damage underground services, existing drainage, public or third party property. In the event of damage to underground or overground property, the licence holder must notify the Area Engineer and detail the site location, pole reference number and completed repair.

REASON: To protect existing infrastructure.

11. Installation and Drainage.

The installation of the telecommunication poles shall not impair the operation of the existing land and roadside drainage and the applicants shall not interfere with roadside drainage without the prior written agreement of the SDCC Roads Department.

REASON: In the interest of the proper planning and sustainable development of the area.

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

12. Notification to the Roads Authority and National Roads Authority.
- (a) The applicant or licensee shall , in advance of the commencement of the works to erect, construct, place or maintain electronic communications infrastructure or any associated physical infrastructure, inform:
- (i) South Dublin County Council, and
- (ii) where planned work is on a national road, the National Roads Authority.
- (b) This licence does not permit the erecting of Poles within 10 metres of any special engineering difficulty which includes bridges, retaining walls, quay walls, piers, pylons, cellars, railway crossings or light railways, unstable embankments or cuttings.
- REASON: in the interest of proper planning.
13. Maintenance.
- Access to the licence area for maintenance purposes by any statutory undertakers shall be available at all times.
- REASON: In the interests of the proper planning, maintenance and development of the area.
14. Construction Traffic Management Plan.
- The applicant shall submit a construction traffic management plan for the written agreement of the Planning Authority.
- (a) The construction traffic management plan shall include details on the maintenance routine during the initial and operational phase of the infrastructure, in essence, the roads department would like to see proposed parking/set down location for maintenance crews.
- (b) No vehicle shall be allowed to park, intrude or obstruct public footpaths/cycle line during the construction and operational stage unless agreed through the construction and traffic management plan.
- REASON: To protect the amenities of the area.
15. Safety During Works.
- (a) Prior to commencement of works, a temporary traffic management plan shall be agreed with the SDCC Roads Department. The programme of works shall provide detail of the impact on traffic and proposed traffic control at each site which shall conform with the licence holders' statutory obligations. The Roads Authority may issue directions in relation to this submission in accordance with the Road Traffic Act.
- (b) The temporary traffic management plan shall be available for inspection on site, and shall comply with the Traffic Signs Manual and health and safety requirements.
- (c) Appropriate warning signage including lighting where required shall be erected during the installation period for the benefit of all road users, members of the public and site employees and to highlight the presence of construction related traffic on the public road adjoining the site.
- (d) The Licence holder must provide a point of contact (Name / Tel No and Email address) who is directly involved with the management and control of the works. The

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

point of contact shall be contactable, be present on site and shall have control over the work site.

(e) Prior to any works taking place which would affect a public footpath or cyclepath, the applicant shall obtain the written agreement of the SDCC Roads Department for an alternative temporary pedestrian and/or cycle route along the public road and/or public footpath and/or cyclepath, at any location where a public footpath and/or cyclepath is being affected by works. The full cost, including public liability of the provision of the alternative temporary pedestrian and/or cycle route shall be borne by the applicant.

(f) The applicant shall obtain the written agreement of the Roads Department for prior to any interference with the public footpath for the purposes of works.

(g) The Licence Holder shall consult with an Garda Síochána prior to the implementation of any traffic management using temporary traffic signals or Stop & Go boards.

REASON: In the interest of public and traffic safety.

16. Footpath and Cyclists.

(a) The developer shall ensure that the telecommunications poles not obstruct pedestrians, cyclists and will not to create a road safety hazard.

(b) The equipment installed under this licence shall be at least 600mm from the edge of the nearest footpath or cycle path.

REASON: In the interests of public safety and the comfort and safety of vulnerable road users.

17. Costs Incurred.

All costs incurred by South Dublin Council Council including any repairs to the public road and services, arising as a result of the licence, shall be at the expense of the licensee. Work to the public road shall only be carried out by South Dublin County Council.

REASON: To recover the costs of any necessary works to the public road.

18. Indemnification.

(a) The Licence Holder shall indemnify South Dublin County Council in respect of legal liability, loss, claim or proceedings whatsoever arising out of or in connection with:

(i) death and/or bodily injury to any persons whomsoever; and

(ii) loss or damage to any property whatsoever (arising from the negligent act, omission or breach of duty by the Licence Holder, its employees, servants or agents), which are caused by or arise from the carrying out of associated works or activities under the granted licence (including installation of property) by the Licence Holder, its employees, servants or agents save for where any loss, claim or proceedings arise out of the negligent act, omission, or any breach of duty whatsoever of the relevant road authority or their employees, servants, agents or otherwise.

(b) The Licence Holder shall hold, maintain and submit evidence of the following insurances:

(i) Employers liability insurance with an indemnity limit of not less than €13 million each and every claim; and

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

(ii) public and products liability insurances with indemnity limits of not less than €6.5million each and every claim respectively

Such insurances shall be extended to include an indemnity to South Dublin County Council where applicable.

REASON: To indemnify the Council for works carried out by the licensee.

19. Reinstatement of Remaining Area.

The remaining grass area around the structure shall either be retained in its present state or reinstated within 3 months of the installation of the equipment.

REASON: In the interest of visual amenity and the proper planning and sustainable development of the area.

20. Construction Noise and Hours.

To control, limit and prevent the generation of unacceptable levels of Environmental Noise Pollution from occurring during construction activity, no Equipment or Machinery (to include pneumatic drills, on-site construction vehicles, generators, etc.) that could give rise to unacceptable levels of noise pollution as set out generally for evening and night-time in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall be operated on the site before 7.00 hours on weekdays and 9.00 hours on Saturdays nor after 19.00 hours on weekdays and 13.00 hours on Saturdays, nor at any time on Sundays, Bank Holidays or Public Holidays.

Any construction work outside these hours that could give rise to unacceptable levels of noise pollution shall only be permitted following a written request to the Planning Authority and the subsequent receipt of the written consent of the Planning Authority, having regard to the reasonable justification and circumstances and a commitment to minimise as far as practicable any unacceptable noise outside the hours stated above. In this respect, the applicant or developer shall also comply with BS 5228:2009 Noise and Vibration Control on Construction and Open Sites, and have regard to the World Health Organisation (WHO) – Guidelines for Community Noise (1999).

The applicant or developer shall also endeavour to engage in local consultation in respect of any noise sensitive location within 30 metres of the development as approved prior to construction activity commencing on site. Such noise sensitive locations should be provided with the following:

- Schedule of works to include approximate timeframes
- Name and contact details of contractor responsible for managing noise complaints
- Hours of operation- including any scheduled times for the use of equipment likely to be the source of significant noise.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, the proper planning and sustainable development of the area and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

Comhairle Chontae Atha Cliath Theas

PR/0487/22

Record of Executive Business and Chief Executive's Order

21. Operational Noise.

(a) Noise due to the normal operation of the proposed development, expressed as LAeq over 15 minutes at the façade of any noise sensitive location, shall not exceed the daytime background level i.e. 0700 – 1900 by more than 10 dB(A) and shall not exceed the background level for evening and night time (currently 19:00 – 07:00) as determined in S.I. No. 140/2006 - Environmental Noise Regulations 2006 .

Clearly audible and impulsive tones at noise sensitive locations during evening and night as determined in S.I. No. 140/2006 - Environmental Noise Regulations 2006 shall be avoided irrespective of the noise level.

(b) Noise levels from the proposed development shall not be so loud, so continuous, so repeated, of such duration or pitch or occurring at such times as to give reasonable cause for annoyance to a person in any residence, adjoining premises or public place in the vicinity.

(c) All mechanical plant and ventilation inlets and outlets should be sound insulated and/or fitted with sound attenuators as necessary to ensure that the noise level as expressed as LAeq over 15 minutes at 1 meter from the façade of any noise sensitive location does not exceed the background level by more than 10 dB(A) for daytime and shall not exceed the background level for evening and night time (currently 19:00 – 07:00) as determined in S.I. No. 140/2006 - Environmental Noise Regulations 2006.

REASON: In the interest of public health by the prevention of unacceptable levels of noise pollution which could interfere with normal sleep and rest patterns and/or when people could reasonably expect a level of quietness, and to uphold the Council's amenity policies set out in the South Dublin County Council Development Plan.

NOTE: The applicant is advised that under the provisions of Section 254(6) of the Planning and Development Act 2000 (as amended), any person may, in relation to the granting, refusing, withdrawing or continuing of a licence under this section or to the conditions specified by the planning authority for such a licence, appeal to An Bord Pleanála.

NOTE: A Roads Opening Licence must be obtained from South Dublin County Council prior to the commencement of any works in the public domain in order to comply with the Roads Act 1993, Section 13, paragraph 10. Under this Act, non-compliance constitutes an offence.
