

Proposed Section A-A
Scale 1:50

Flat roof to fall away from boundary line.
Zinc/fibreglass finish, on roof buildup.

New external wall built up tight against
boundary wall.
215mm block wall, sand/cement render
internally for airtightness, with 100mm
insulated plasterboard.

Timber flooring, on 44x200mm C24 joists
@ 400mm c/c. Insulation between joists.

New post and beams to support new
first floor external walls

Notes: -
All drawings to be read in conjunction with
Architects drawings.

Do not scale off these drawings - use
figured dimensions only

All dimensions to be checked on site

All work to comply with the 2014 Building
Control (Amendment) Regulations
