Colm,
Please see below comments on SHD3ABP-313145-22.

- The lighting design as submitted is acceptable with the caveats below.
- A new lighting system will be required on Boherboy Road along the new footpath constructed as part of this proposal but should also be extend up to the junction with Blessington Rd as there is currently no Public Lighting along this route.
- Where new roads are to be tied into eixisting roads, existing lighting columns should be considered.

Regards,
Gráinne
