

Neighbour structure: 29 St. Endas Drive, Rathfarnham, Dublin 14
Source: Google

8

Neighbouring structures on the same street have also increased the height of lower windows in line and consistent with each other as seen in this image (right).

Having regard to **Section 4(1)(h) of the Planning and Development Act 2000**, Our proposal would not materially affect the external appearance of the structure so as to render the appearance inconsistent with the character of the structure or of neighbouring structures.
