

All components of the buildings which are below the highest ground water level have to be constructed with water proofing (external and internal waterstop).
All shown components and dimensions are for information only!

Foundations:
All reinforced foundations build on lean concrete C12 / 15. Foundations build on freezable and sustainable ground. If the foundation gets deeper as provided, difference between planned and exist foundation-level fill up with concrete.

Typical Green Roof Design (TBC at Detailed design stage)

GROUND FLOOR

SOUTH FACING ELEVATION A

EAST FACING ELEVATION B

WEST FACING ELEVATION D

NORTH FACING ELEVATION C

SECTION 1-1

SECTION 2-2

As agreed with South Dublin County Council in the pre-application consultation meeting the final finishes, including cladding materials and colour codes, will be agreed with the Council post planning through planning condition. Greener Ideas Limited will ensure only Council approved finishes are applied on site.
