Dear Sirs,

I am a new resident to the Citywest area, and as someone who wants their home to be a forever home, I am concerned that the speed in which houses and apartments are being built as it is disproportionate to the number of amenities and facilities in the area for young people.

I am not objected to the homes being built as such. I work in disadvantaged communities and see that young people who are apart of these families whom your development is for turn to drug and alcohol use to relieve boredom, and to create a sense of belonging in an empty, dull community. I do not want them experiencing their community to be soulless and a concrete jungle as many of my young people in work do.

This results in a variety of different levels of anti-social behaviour and will attract the wrong kind of people to the area, as you will see below in the photos. We will all suffer the consequences of the decisions you make with this development. Please include community centres, family spaces and youth service spaces in your development, along with the points below.

- 1) Several parallel developments are currently underway or approved in the Citywest area, this will leave Citywest with the population of a town but without the amenities of a town. We have no community centre, no GAA pitch, no secondary school etc.
- 2) Proposed future vehicular access to the development from Carrigmore Green/Elms and Corbally Heath is a major safety concern, these are residential streets that children play on. The streets are too narrow and can already barely cope with the traffic and parking as it is.
- 3) Traffic in the area is already an issue and this is before the current developments that are currently in construction are built, the area would come to a standstill with the addition of more housing.
- 4) If approved development should be phased with specific amenities provided e.g. community centre in the first phase.
- 5) Biodiversity is an issue here, practically all the green spaces that existed in Citywest 2 years ago will shortly be covered in cement. The government have declared a climate crisis and we still continue to have no regard for nature.

- 6) Flood risk is still an issue for the area as people are unable to secure house insurance.
- 7) There are two Neolithic standing stones in the proposed development area which assumedly will be destroyed/ removed in the building which is destruction of historical items.

**(1) Rubbish from residents of other estates at the Carrimore Bin sheds regularly.**

**The county council fixing a park bench in Carrimore Park-estimated costing.**

**(2) Rubbish dumped and gone through by wildlife behind the Citywest Shopping Centre.**

**(3) Park bench being completely destroyed again by teenagers with nothing else to do, and nowhere else to be.**

- (4) The width of the proposed entrance road to the new estate, it is NOT two way. There is NOT enough room/space for all the cars already. Cars in the bay parking are NOT designated a space and regularly have to park elsewhere despite the cars needing parking permits to park in the bay.**

- (5) Again, the lack of space for cars to come and go in the Carrigmore estate. it is the same in Corbally and other estates surrounding the purposed development as the roads are the same width.**

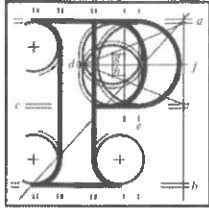

I would appreciate if you could take into consideration the above points when deciding on the planning application for this development.

Kind Regards,

---
