Dear Sir/Madam,

Regarding the planning application for residential development on: Stocking Lane, Ballyboden, Dublin 16
Planning Reference No. SD22A/0271

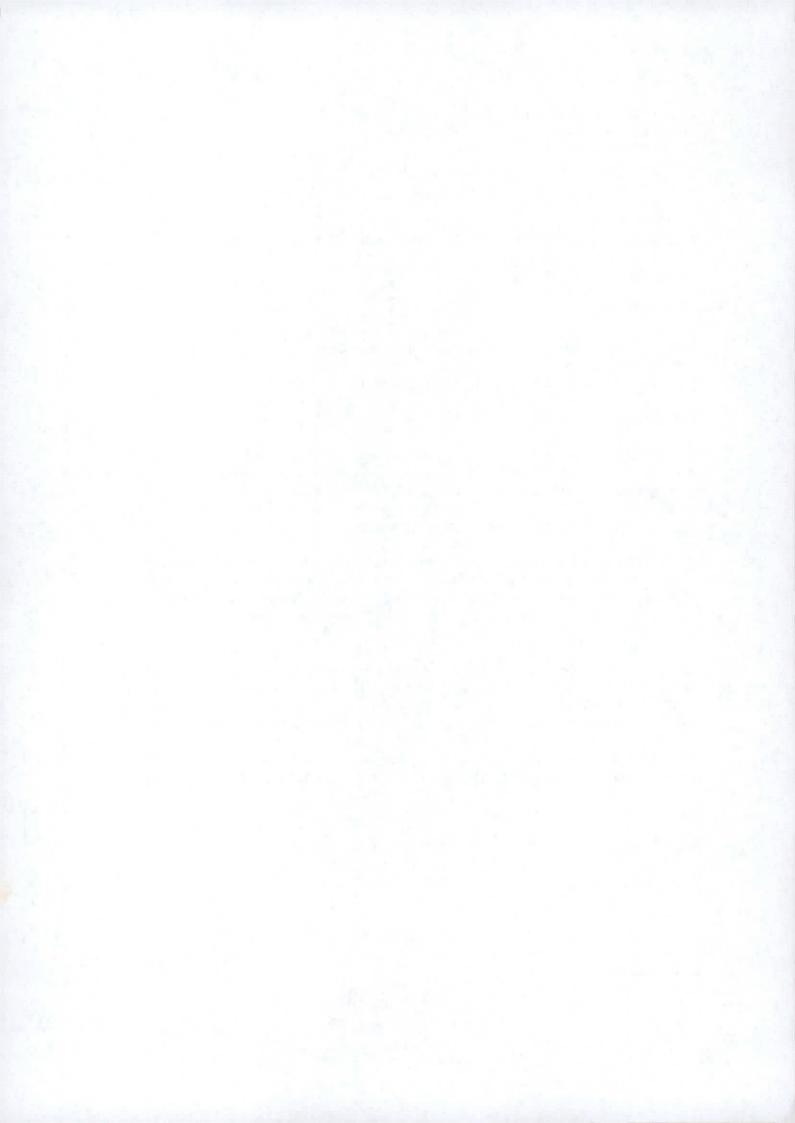

I would like to raise the following concerns:

- -This site is on a country lane that is 3km from a main town centre. It is not adequately supported by public transport so the max units for this site should be aligned more to the lower number of units of the suggested range. A total of 24 units is proposed for this development. Statutory planning guidelines on sustainable residential development suggests 35 to 50 dwellings per hectare. The proposed site is on 0.462 hectares so the suggested range would be 16 to 23 units.
- -Traffic congestion is already a problem on Stocking Lane, given the new housing developments of Scholarstown Wood, Barnes Field, and Laurel Manor. On morning journeys during the school year the traffic is backed up for over a kilometre, before 8am. To get to the M50 from Prospect Drive, Stocking Lane, which is a 2km journey, currently takes 30 minutes by car before 8am on a school morning.
- -All structures within close vicinity of this new development are two storey houses only. A four storey structure comprising 1 and 2 bedroom units is not in keeping with the area. The proposed development is inconsistent and incompatible with the existing residences and character of the area, and therefore in conflict with the zoning principles to protect and enhance residential amenities.
- -As 50% of the units are 1 bedroom capacity, the development is clearly aimed at college students. There is inadequate public transport in place for connections to UCD, DCU, and Griffith College.

Please see attached receipt of €20 for this submission.

**Yours Sincerely**
